CHINA PROPOSES
RAIL EXPANSIONProgram of Reconstruction
Told to CongressSum of \$12,500,000,000 in
Fifty-Year BudgetNew Capital and Highways
Included in Plans

HANKING (China) March 19. (P)—Sun Fo, Minister of Railways, today introduced before the Kuomintang Congress a huge economic reconstruction program planned by the Nationalist government covering fifty years and involving an expenditure of \$12,500,000,000 in gold. The plan calls for construction of 20,000 miles of railway and 10,000 miles of motor road. It also calls for \$50,000,000 gold appropriation for the construction of a national capital at Nanking.

Sun Fo proposed that the yearly amount required, which is \$250,000,000, be obtained by a government appropriation of \$100,000,000, foreign loans of \$100,000,000 and reconstruction bonds of \$50,000,000.

IN DIAMONDSPer Capita Value Greater
Than Any Country
in World

NEW YORK, March 19. (P)—Diamonds owned in the United States are valued at \$4,000,000,000, the Continental Insurance Company has found.

The per capita value of the country's holdings is greater than that of any other country. Few of the world's largest diamonds are owned in this country.

OLD AUSTRIA TEXTILE
COMPANY BANKRUPT

VIENNA, March 19. (P)—Austria's oldest textile firm, Karl Kohn & Co. failed today with an indebtedness of \$500,000. There are 100 creditors of whom many were foreigners. Loss of foreign markets is given by the company as the principal reason for the collapse.

BRITISH EXPLAIN
GAS PRICE RISEOil Companies Answer Query
of GovernmentReply Avoids Mention of
Russian AgreementAssertion Made That Boost
Meets World Level

LONDON, March 19. (P)—The reply of the oil companies to the government request for explanation of the reasons for the marked increase in the price of gasoline was issued tonight. The request was forced on the government by strong criticism voiced in Parliament, but the explanations now made are little likely to satisfy these critics. The reply was a voluminous document with a mass of statistics dealing with the supply and distribution in the British market.

It said that prices had been below "world prices" because of Russian dumpings, and that it was not until the end of February that arrangements were reached which ended the price war and permitted a return to prices "essential to the maintenance of supplies for the British market."

There was no mention of the agreement recently signed with Moscow and the reference to "the end of February" was the nearest approach to any allusion to that agreement. The reply thus threw no light upon the nature of the agreement.

The statement took the Gulf of Mexico as the "center of gravity" of the world petroleum trade and said that prices ruling there represent the basis of world values for petroleum products and in normal circumstances must dominate the prices ruling in Britain.

The whole argument of the reply

FIRE SAWED OFF
OF BUILDINGMaine Town Minus Nose Cart,
But Saves Postoffice With
Lumber Tools

BREMEN (Me.) March 19. (P)—The village of Muconus near here has no fire-fighting equipment, but it has cross-cut saws, logging chains and large automobile trucks.

When the fire broke out last night in a residence which houses the postoffice, the villagers sawed the two portions apart, hooked on their chains and dragged the burning structure to a safe distance, where they let it burn.

The blaze did not damage the postoffice.

It was that, taking into consideration costs and distribution centers, the recent advance of prices here only brought the price to the world level. On February 28 the largest British oil companies had announced an increase of about 5 cents a gallon in the price of gasoline.

Bennett-Plant
Divorce Pends

PARIS, March 19. (P)—Divorce of Constance Bennett, American actress and daughter of the actor, Richard Bennett, from Philip M. Plant, prominent New Yorker, is pending "in four Nice courts," one of the principals said today.

Mr. Plant sails for New York tomorrow. Constance Bennett is now out of danger in a hospital where she is recovering from a severe attack of appendicitis.

JAPAN UPHOLDS
KELLOGG'S PACTPhraseology Defended in
Reply to InterpellationClause Not Unconstitutional,
Government DeclaresRatification Awaits Advice of
Privy Council

TOKIO, March 19. (P)—The Japanese government today published a lengthy statement upholding the Kellogg antiwar pact.

The statement was in reply to interpellations in the Diet by Yukio Ozaki, leader of the constitutional party, in which it was charged that the phrase, "in the name of their respective peoples" in Article I of the treaty is in violation of the Emperor's sole right to make treaties.

The political squabble which flared up recently in the Diet over the phrase is one of the reasons why Japan, alone of the original signatories, has not yet ratified the treaty.

The government's statement insists first that the phraseology is in no way contrary to the spirit and letter of the Japanese constitution, second, that a Japanese translation has not yet been made but will be published shortly after a careful study of the debated phrase has been made, and third, that the government does not see the necessity of publishing the correspondence between Tokyo and Washington concerning the treaty.

It is understood the government intends to refer the treaty to the Privy Council after the Diet ends next Monday. The council's advice will determine whether the Emperor ratifies it.

Why ATTILIO of Rome

Beauty Specialist to the Italian Royal Family

advises all of his patrician clients to use Palmolive Soap twice daily

"The finest cleansing agents for the skin are, by general consent, olive and palm oils. For that reason, I always ask my clients to help me in the task of improving their complexions by cleansing the skin twice a day with Palmolive Soap, which embodies these two soothing oils in their purest form."

Attilio Colla

PIAZZA DI SPAGNA 68, ROMA

The typically Roman marble facade of Attilio's salon on the Piazza di Spagna, ... where the patrician ladies of Italian artistic and social life consult the most distinguished of all Roman beauty specialists ... The lovely fountain in front of St. Peter's—symbol of "The City of Fountains," at the left.

IN Rome, at the foot of the historic "Spanish Steps," the Piazza di Spagna is circled with shops that attract the most brilliant society. Here, some years ago, a Ferraro youth came to establish a beauty shop which, today, is the finest place of its kind throughout beautiful Italy. His name is Attilio Colla... better known to his patrons as "Attilio."

For years Attilio worked and studied the art of beauty culture in Paris. He then went to Budapest... then to Vienna, to London, once more to Vienna... always adding to the invaluable store of information which today sets him apart in his chosen field.

In his shop, at 68 Piazza di Spagna, he receives visits from no less a personage than her Majesty, The Queen of Italy. Roman patricians naturally seek his advice on care of the skin. So do women of the moving picture and stage aristocracy.

"I am perfectly certain," says Attilio, "that there are countless complexions which are less lovely than they ought to be, merely because one of the simplest and most natural of all beauty treatments is neglected. I refer to the cleansing of the skin."

"Soap cleanses the skin—cleanses the pores—as nothing else can, and it is the basic essential of successful beauty treatment. Much of the work of the beauty expert is nullified by neglect to follow this simple rule of complexion care. It is, of course, important to use the

The lovely Ada Fontana, of Attilio's staff, is a perfect type of Italian beauty.

right kind of soap, because many kinds are not only unsuitable but positively harmful to the complexion. I always ask my clients to use Palmolive Soap, which embodies the finest cleansing agents for the skin."

Attilio's distinguished colleagues, in every great capital of Europe, in every smart resort... repeat this same advice. Madame Valentin Le Brun, Lina Cavallieri, of Paris; Pessi, of Vienna and Budapest, advisor to crowned heads of Europe... these and dozens of other experts tell their discriminating clients this easily-performed, twice-a-day treatment: massage a smooth lather of Palmolive Soap and warm water into the skin. Allow it to penetrate the pores. Rinse, after two minutes, first with warm water, now with cold. Then—and only then—are you ready for make-up!

If you do not already keep your skin fresh and lovely in this way, take the advice of the world's experts: begin to use Palmolive today!

A priceless formula embodying the precious oils of palm and olive, famous since the days of Cleopatra for prolonging health and beauty.

SPRING ART EXHIBITIONS IN FULL SWING

This month the galleries of the members of the Southern California Art Dealers Association present a colorful collection of important paintings by artists of established reputation and unusual ability. The Old Masters, Early American Masters and Contemporary Artists, who have won the highest honors in their fields, are shown in this group of splendid exhibitions.

The Spring Art Season is in full swing, bringing with it some of the greatest paintings to be shown in Southern California during 1929. It is with great pleasure that the Southern California Art Dealers Association invites you to view the following exhibitions:

- Paintings by Fritz Thaulow and Anton Mauve
Paintings by Eastern Artists. **KANST GALLERIES**
6182 Mulholland Highway
Hollywoodland
- Landscapes by Oscar Coast and Julian Itter
Paintings for Fairy Stories by Harold Gaze **KIEVITS GALLERIES**
464 East Colorado
Pasadena, Calif.
- General Exhibition of Marines and Landscapes
by Western Artists. **BARTLETT GALLERIES**
3358 West 1st Street
- Collection of Old and Modern Paintings from the
Robert C. Vose Galleries of Boston **BILTMORE GALLERIES**
Biltmore Hotel
- Paintings of the Ballet by Louis Kronberg
Old and Modern Paintings **AINSLIE GALLERIES**
Barker Brothers
- Marines by Leon Bonnet
Decorative Watercolors by Heath Anderson **WILSHIRE GALLERIES**
3309 Wilshire Blvd.
- Landscapes and Marines by Elmer Schofield, N. A.
and Gardner Symons, N. A. **STENDAHL GALLERIES**
Ambassador Hotel
- Landscapes by George Inness, N. A., and A. H.
Wyant, N. A. North Africa and the Grand Sahara by George & Martin Baer. **NEWHOUSE GALLERIES**
2309 West 7th Street

The galleries listed above maintain permanent exhibition rooms at the various addresses given, where the finest pictures brought to California are shown in monthly exhibitions to which visitors are welcome.

WATER AND POWER SERIES NUMBER SEVEN

AT WORK

LOS ANGELES MEASURES
its prosperity and future growth in terms of
water and electric power.

Water—to support a continuing increase in
population. Electric power—to turn and multiply
the wheels of industry and commerce.

In order to provide the people with these
vital necessities, the Department of Water and
Power is operating a City-owned Aqueduct water
and hydro-power supply system that reaches out
to the snow-capped High Sierras, 250 miles north
of Los Angeles.

Within the city, the Department is opera-
ting a water distributing system that includes
more than 3,300 miles of mains—enough to span
the American continent. To meet the increasing
needs of Los Angeles consumers, the Department
is extending this system by the construction
each year of more than 200 miles of new mains.

Within the city, the Department is serving
electric consumers through 42 distributing cen-
ters and ten thousand miles of overhead and
underground lines.

Reliable water and electric service in Los
Angeles demands the continuous expansion of
service facilities. And the Department constantly
is at work extending and improving the City's
water and electric systems.

TAMMANY CHIEF MUST BE PICKED

Ultimatum Issued by District
Leaders at Meeting

Field Narrowed Down to
Three Candidates

Decision Believed Between
Curry and McCue

NEW YORK, March 19. (AP)—Pit-
teen of the thirty-five district lead-
ers of Tammany Hall met today and
issued an ultimatum that a district
leader must be selected to succeed
the resignation of George W. Ol-
vany.

They also decided to call a cau-
cus to meet at 12 o'clock Thursday
afternoon to decide upon the
leader they will vote for at the
meeting of the executive com-
mittee Friday.

THREE MEN DISCUSSED
The conference was held in the
office of County Clerk Parley. The
district men who attended have nine
of the twenty-three votes in the
executive committee, which will
choose the new leader.

Mr. Farley, who acted as spokes-
man for the group, said three can-
didates had been discussed at the
meeting: John F. Curry, co-leader
of the Fifth Assembly District and
commissioner of records; Martin O.
McCue, clerk of the Surrogate's
Court and close friend of Burro-
gate Parley; and Michael J. Cruise,
co-leader of the Twelfth Assembly Dis-
trict.

FRIENDLY TO MAYOR
All are considered friendly to
Mayor Walker, to whom the selec-
tion of leader means much with a
majority campaign approaching in
which he again hopes to be the
Tammany candidate.

Political observers believe the
choice lies between Curry and Mc-
Cue. The former held a conference
with Mayor Walker at City Hall to-
day and unofficial circles said he
had the Mayor's support for the
leadership.

Men of those attending hurried
away after the conference, declin-
ing to discuss what had taken
place.

McANDREW LIBEL SUIT
FOR \$100,000 CLOSES

CHICAGO, March 19. (AP)—The
\$100,000 libel suit which William
McAndrew, formerly Superintendent
of Schools, filed against Mayor
Thompson, was allowed to drop,
temporarily at least, today for want
of prosecution. The court denied a
continuance and dismissed the ac-
tion, but plaintiffs' lawyers said they
will renew the suit. McAndrew
sued for libel on the grounds that
the Mayor had said he was "poison-
ing the minds of young Chicagoans
with pro-British propaganda."

MORE DIPLOMATIC RUM DUE

State Department's Worries Grow as No Solution
Appears to Immunity Problem

WASHINGTON, March 19. (AP)—Officials of the State Department
found new worries over the question of diplomatic liquors today after it
became known that several more shipments consigned to foreign missions
in Washington are either on the high seas or at foreign docks awaiting
shipment to Baltimore.

Effort to straighten out the tangle of
technicalities and contradictory
opinions which have cropped up
since the seizure. Nothing, however,
has been disclosed as to their dis-
cussion.

It was the opinion in a number of
quarters today that the American
government will express "regrets"
to the Siamese Legation over the
incident, but it is doubted that the
State Department will feel called
upon to give any "profound, apol-
ogical" as has been suggested.

TRUCK LINES WARY
Ever since the Washington po-
lice seized a shipment of sixty cases
of liquor consigned to the Siamese
legation last week, private trucking
companies, which had previously
transported the liquors for the le-
gation, have been careful not to ac-
cept any such contracts, pending
some decision in the case against
the driver and his helper involved
in the Siamese seizure.

The suspicion made several days
ago, that the foreign missions here
might pool together and purchase
a truck, which would be immune
from seizure since it would be
owned by the foreign missions
themselves, appears to be the most
acceptable solution so far offered in
the situation.

HOWARD IN CONFERENCES
Sir Esmé Howard, the British
Ambassador, as dean of the Diplo-
matic Corps, has conferred with
State Department officials in an ef-

College Gift by Stokes Revealed

CHICAGO, March 19. (AP)—In or-
der to show his appreciation for
the fair trial he received here in
1928 when charged with a criminal
conspiracy to defame the name of
his wife, W. E. D. Stokes, wealthy
New York hotel owner, who died in
March, 1926, left \$2000 to Cornell
College of Mount Vernon, Iowa, it
was learned today.

Judge Gemmill, who presided at
the trial, revealed the gift. Judge
Gemmill is an alumnus of the col-
lege.

several other books, died today.

SHIP OF STATE PUT IN DRYDOCK

Drive to Padlock Washington
Liquor Leaks Begun

Police Envision Capital as
Nation's Driest City

Ambition Cherished to Set
Example to Country

WASHINGTON, March 19. (AP)—
A move to make the capital the
driest city in the United States was
started by Washington police. Or-
ders were issued by Supl. Heston
for a thorough canvass of all places
suspected of selling liquor, with
padlocking of every speakeasy the
objective.

Dry leaders of Washington some
time ago sought a thorough mop-
ping up of liquor cases in the city,
saying that the nation's capital
should set an example to officials
of every other city.

Police indicated that the task of
striking padlocks would require a
great deal of systematic effort.
U. S. Atty. Rover informed the de-
partment that, to successfully in-
stitute padlock proceedings, evidence
must be furnished to "show such
a continuity of violations as to es-
tablish the fact that the particular
premises are being used as a regu-
lar course of business" for keep-
ing and selling liquor.

Seeking to pile up all the evi-
dence possible against places for
which padlocking is to be sought,
the police department has planned
a thorough study of its records of
past arrests for prohibition-law
violations. Evidence of arrests hav-
ing a hearing on the cases in ques-
tion will be employed to show "con-
tinuity of violations."

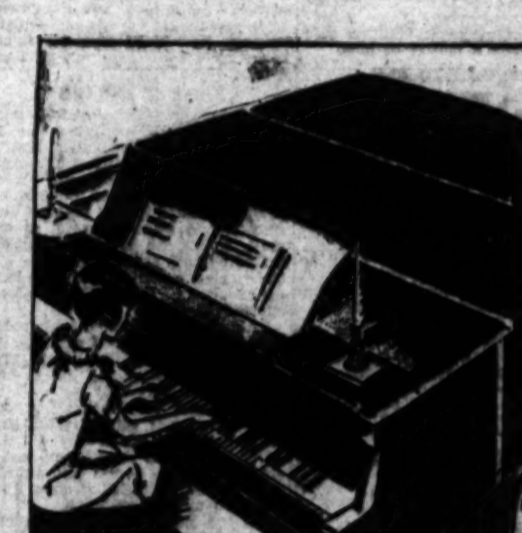

Skinny "Lifeless" Women gain weight

New YEAST and iron adds
pounds in few weeks. Results
guaranteed—or pay nothing

If we could only show you the won-
ders that Ironated Yeast has done for
thousands of men and women. The
bony skeletons that have quickly been
filled up with firm flesh, stringy muscles
and bony limbs given rounded, healthy
forms. Only when Yeast is ironated is it
more effective—for iron is needed to
bring out the weight-building,
strengthening values of Yeast.
Get a handy bottle of these tasty
tablets today. Just a single course
treatment will prove that you can be
attractive and healthy. Safe for every-
body. They do not upset the stomach
nor cause gas or bloating.
Ask your druggist for Ironated
Yeast today. If not delighted with the
quick results, your money back. It

PIMPLES GO, SKIN CLEARS USING INVISIBLE ZEMO

Is a surprising fact. Even such skin
troubles as pimples, itching rash and
blotches vanish—the skin clears—when
washing with Zemo is used. And in
20 years this wonderful skin-clearing
has seldom failed to relieve the most re-
billion cases of Eczema. Have invisible,
colorless Zemo always on hand to re-
move skin irritations instantly. All drug-
stores—35c, 50c and \$1.00. Get a bottle
today.—(Advertisement)

The Rich Tone of
a Concert Grand
in a tiny
KNABE
MIGNONETTE

THE Knabe Mignonne Grand was
designed for people whose needs
require:

1. A piano so rich in tone that any
concert artist would be eager to play it.
2. A beautiful piece of furniture.

3. An instrument small enough to be
gracefully placed in the limited space of
the usual modern apartment.

Come today and see how successfully
these demands have been met in the
Knabe Mignonne Grand. In mahog-
any, \$1475. With the Ampico, the
world-famous reproducing instrument,
\$3050.

No greater honor can come to a singer
or to a piano than to be chosen by the
Metropolitan Opera Company.

Pagliacci. The curtain has just come down.
Canio, heartbroken by tragedy, sits down to a
cheerful game of checkers with Nedda,
against whom he will battle in the next act.
Presently they follow the examples of the
other singers and stroll back to soundproof
rooms where they limber up their voices for
the next scene. In each room is a piano. Each
piano is a Knabe, the official piano of the
Metropolitan Opera Company.

To place the Knabe Mignonne Grand imme-
diately in your home, only a 10% initial pay-
ment is required. The balance, deducting a
generous allowance for your old piano, is dis-
tributed over a period of two years.

SANTA FE WON'T MAKE RAIL PACT

Great Northern's Alliance
Hopes Dashed

Tracks Not to be Shared But
Joint Rates Likely

President of System Tells
Views at Bay City

SAN FRANCISCO, March 19. (Ex- clusive)—What plans the Great Northern Railroad may have in prospect to get into the Pacific-Southwest via Los Angeles will have to be developed, if at all, without joint usage of Santa Fe tracks.

W. B. Storey, president of the Santa Fe system, was quite plain in that respect when he commented here tonight on recent statements by Great Northern executives that an alliance with the Santa Fe is quite within reason as a means of interchanging the commodities of the Southwest with the northern tier of States and Southern Canada.

NO OVERTURES MADE
It was explained at the time that no overtures had been made to the Santa Fe and very likely would not be until an Interstate Commerce Commission decision has been rendered in the pending application of the Western Pacific for a new line into the San Joaquin Valley. The matter was left open as to whether an agreement will be sought through joint usage of tracks or through joint rates.

Storey's first assertion that the Santa Fe will not share its tracks with any railroad seemingly precludes any possibility of an alliance between the Great Northern and the Santa Fe in so far as joint usage is concerned. It continues to leave open for consideration, in the event the Great Northern makes overtures, the prospect of joint rates. In railroad circles it has been anticipated that this will be not only the most logical but probably the only possible basis upon which the respective railroads can or will reach agreement.

STORY'S COMMENT
Storey's comment to the point involved was: "The Santa Fe Railroad will interchange freight with the Great Northern or any other line not competing with it, but it will share its tracks with no railroad."

Storey added that "The Great Northern might like to have Southern California cities believe it is coming in over the Santa Fe."

The Santa Fe president consulted with A. O. Wells, vice-president of the system, and such affirmed the presence of the two in San Francisco simultaneously is a coincidence. Storey said he is making his usual visit to the Pacific Coast and Vice-President Wells declared he is here on an inspection trip. R. T. Bledsoe, chief counsel for the Santa Fe, was here recently.

WASHINGTON, March 19.—(Ex- clusive)—The Boulder Dam project was the subject of a luncheon conference at the White House today participated in by President Hoover, William J. Donovan, former Assistant Attorney-General, and the government's representative at the Santa Fe "compact conference" and Representative Swing of El Centro, Cal., co-author of the Colorado River legislation.

Just what turn the discussion took was not revealed except that it had to do with the efforts to bring about full seven-State ratification of the Colorado River compact. It is understood Mr. Hoover took the position that this matter should be left entirely to the States interested, without any interference or suggestion on the part of the White House.

Representative Swing and Col. Donovan both declined to comment on the meeting. The latter, who is returning to Santa Fe April 17 to reconvene the Colorado River conference, likewise refused to say whether he thought Arizona finally would be brought into line and the river compact made a seven-State affair, instead of six-State as it now stands.

Donovan stood on the statement he made before leaving Santa Fe earlier in the month in which he said he was "hopeful" all seven States finally would join the compact.

WHITE PLAINS (N. Y.) March 19. (Exclusive)—When Walter T. Kennedy, builder and realty speculator of Elmsford, N. Y., was indicted for bigamy by the Westchester county grand jury today, his wife for fourteen years, Mrs. Harriet Kennedy, wealthy in her own right, made it known she had forgiven him and supplied \$10,000 bail in which he was freed to go home with her.

But for her rival, Mrs. Mary Agnes Thompson Kennedy, 31, pretty and blonde, the first Mrs. Kennedy had only disdain. The second Mrs. Kennedy was indicted along with the builder and having no near relatives she went to a cell, taking with her 3-month-old baby.

SACRAMENTO, March 19. (P)—Ten cement corporations officials ordered to jail for contempt of the Senate last week, were indicted to surrender to Sergeant-at-Arms Joseph Nolan in San Francisco Friday, Senator J. M. Inman announced today.

Surrender of the men is expected to precipitate immediately a determined battle before the Supreme Court to prevent the Senate from carrying out the commitment order.

THOS. A. EDISON announces the perfection
of an Electrical Reproducing Instrument

Edison COMBINATION

YOUR CHOICE
of MUSIC from
both
Records and
Radio
\$424⁵⁰
COMPLETE

The Only Combination Instrument That Reproduces ALL Makes of Records!

Long waited—now arrived! Thomas A. Edison's supreme contribution to music—a combination electrical record reproducing instrument and the famous Edison Radio.

Now you can tune in on your favorite programs of the air . . . or, with a turn of the switch . . . enjoy the music of your choice from records.

Both are brought to you with more amazing realism than you've known before, in ALL degrees of volume. Such is the wizardry of Thomas A. Edison!

TWO Instruments in One

First—the new, perfected Edison Electric Amplifying Phonograph. Electrically driven. The only instrument that PLAYS ALL MAKES OF RECORDS.

Second—the famous Edison Radio with built-in oversize power Dynamic Speaker and super-power amplifier using the powerful new "250" tube, giving the ultimate in realism and rich tonal beauty. The Edison is two radios in one—a radio of super-activity that is the best receiver for local stations exclusively. The other, a receiver of keenest sensitivity for utmost distance. Change from one to the other with the mere turn of a switch!

Third—a stunning cabinet of blended walnut finish, with ornamental panels of burl maple. Contains four gold-embossed record albums.

Offered for the amazingly low price of only \$424.50—think of it! The first and only time you have ever been able to purchase a quality electrical combination instrument for less than three times this price! The Edison is beyond question the supreme value in a combination instrument. You can purchase at Fitzgerald's, exclusive downtown Edison dealers, with unusually liberal terms. Hear it—see it—in our Music Rooms today!

CHEERS AND FUSILLADES GREET RANCHER EARL AT HIS CASTLE

SOUTHAMPTON (Eng.) March 19. (P)—Amid cheers from employees of the estate and fusillades of fog signals exploded by a truck pushed along the railway line, the "Rancher Earl," tenth Earl of Egmont, and his son, Viscount Percival, arrived at the family seat, Arton Castle, Hampshire, today.

They traveled in a large motor car and were accompanied by Mr. and Mrs. Trimmer, former postmaster, and his wife of Priddy, Alberta, who are acting as the Earl's advisers during his visit to England, and the steward of the Egmont estate.

The Earl and the 14-year-old Viscount were greeted at the doorway by the butler. Both were wearing the large check cloth caps already

HOME BECOMES FUNERAL PYRE

Mother and Daughter Burned
to Death on Ranch

BAKERSFIELD, March 19.—Trapped in a flaming ranch house and overcome by smoke and fumes in the middle of the night, two New Jersey women, a mother and her daughter, were burned to death last night in the Walker basin district, forty-five miles east of here. The fire, which claimed the lives of Mrs. Ellen Green, 60 years of age, and her daughter, Mrs. Ada Dale, 33, occurred on the old Lightner ranch at the home of R. Nelson. Nelson, about 60 years of age, narrowly escaped a fate similar to that of the two women.

CALIFORNIA WOMAN GAINS BELATED COLLEGE DEGREE

CHICAGO, March 19. (P)—Mrs. Rita Adair, 71 years of age, of San Diego, Cal., emerged today from an on-and-off scholastic career of forty-one years with a bachelor of philosophy degree from the University of Chicago. She plans to rest a year and then seek her master's degree. Mrs. Adair began her college studies in 1888 at a Kansas teachers' college, but after a year at school, circumstances deferred her studies for twenty-three years. She started anew at Kansas University, but once more other affairs intervened. Her next attempt to win her degree was made at the University of Southern California, where she enrolled after teaching school in Utah. The University of California and

WEALTHY MINE OWNER KILLED

Edward Nolan of Los Angeles
Dies in Auto Mishap

DELANO, March 19.—Edward Nolan, 51 years of age, Los Angeles capitalist and owner of large mining interests in Nevada, was instantly killed late last night when his automobile overturned on the Golden State Highway near here. With the highway made dangerously slippery by a light rain, Nolan's car skidded and crashed as he started to pass another automobile, according to reports. The body is being held at the Curtis Beal mortuary pending an inquest and completion of funeral arrangements.

MANY PATCHES
ON MOTOR BILLSenate Approves State
Highway PolicePedestrians Must Walk to
Left of Coming CarThirty-Mile Minimum Speed
Also Considered

SACRAMENTO, March 19. (P)—The California Motor Vehicle Act will never be the same again in view of a number of amendments to it as tentatively approved by the Senate Motor Vehicle Committee. The entire act is in process of revision by the committee. Amendments approved tentatively provide for:

(1) Creation of a State highway patrol, a semimilitary division in State employ, to replace the present system of designating county traffic officers as State patrolmen.

(2) Pedestrians on highways shall at all times keep to the left of the opposing traffic lane.

Still a further amendment to the State patrol officer amendment is being prepared in committee to provide that counties might suggest officers for State employment as vacancies occur and that it remain discretionary with the chief of the division to employ the men nominated.

The committee discussed an amendment that might place a minimum speed law of thirty miles per hour on highway traffic, but deferred action on it.

A new definition of "reckless driver" was discussed. It is proposed that "gross negligence" be used, but no decision was reached.

The body of the amended act was not acted on and the bill is set out by the Senate to be reprinted and re-referred to the committee.

BILLS PASSED BY ASSEMBLY

SACRAMENTO, March 19. (P)—The State Assembly passed a total of thirty-one bills today. The Senate passed none.

Those passed by the Assembly are:

Assembly Bill No. 414, Deuel, providing that credit for school attendance to districts other than those in which the child resides shall be kept separate and given to the district in which they reside.

Assembly Bill No. 415, Norris, State series of public officials, providing for salaries and for new legislative and judiciary in this country.

Assembly Bill No. 416, Reinhold, correcting the numbering of acts.

Assembly Bill No. 417, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 418, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 419, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 420, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 421, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 422, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 423, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 424, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 425, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 426, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 427, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 428, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 429, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 430, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 431, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 432, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 433, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 434, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 435, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 436, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 437, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 438, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 439, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 440, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 441, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 442, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 443, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 444, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 445, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 446, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 447, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 448, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 449, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 450, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 451, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 452, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 453, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 454, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

Assembly Bill No. 455, Reinhold, providing that any person convicted of a crime shall be liable to a fine of \$100.

CRISIS FEARED
BY ECONOMISTWorst Disaster in History
Gloomily ProphesiedSir George Paish Says Trade
Restrictions to BlameDebtors Can't Pay Up, He
Tells Conference

MANCHESTER (Eng.) March 19. (P)—World trade now lies under the shadow of the worst financial crisis in history. Such was the gloomy prophecy of Sir George Paish, prominent British economist, before the National Free-Trade Conference here today.

"We are drinking and making merry," cried Sir George, "for tomorrow we die."

"I say with the highest authority, and I challenge anyone to deny it, that we are threatened with the greatest financial crisis the world has ever seen because the governments of the world have followed a policy of trade restrictions, preventing debtors from paying their debts."

Sir George thinks the peril very near at hand.

"The greatest authorities in this country and in the United States expect it to come this spring, and unless this policy of safeguarding or protection is checked, it means disaster to the world."

"We are not trying to see a way out, we are just dancing. I am not exaggerating. I wish I were."

Sir George said Germany has more unemployment than Great Britain and that the United States, "supposed to be so prosperous," counts 2,000,000 unemployed. This unemployment is only part of the greater problem of trade depression. Those who have lent money cannot recover it. Hence, the world is suffering.

British bankers, who are supposed to be the most conservative in the world, are expected to be the first to fail.

It described the seal to be used and directed that persons desiring to use the label should register a declaration of intention with the Secretary of State.

"FLEET INSURANCE"
GRANTED APPROVAL

SAN FRANCISCO, March 19. (P)—Groups of persons desiring to take advantage of so-called "fleet automobile insurance" are permitted to do so under State laws, Atty.-Gen. Webb ruled today in a decision handed State Insurance Commissioner Detrick.

"Fleet insurance," Detrick said, covers groups of cars insured under one name.

TURTLES WILD
OATS ALL SOWNKing Solomon Returns Home
After Absence of
Thirty Years

CROCKETT (Cal.) March 19. (P)—King Solomon, an aged turtle, has returned to his home here after an absence of thirty years.

Back in 1897 J. K. Jensen adopted the turtle as a pet and carved his initials and the date on its shell. Two years later King Solomon disappeared. That was the last seen of the turtle until it was found in front of the Jensen home yesterday.

In England to be withholding credit, have never given so much. Sir George explained, but debtors cannot pay because the wheels of trade are not revolving.

Sir George blamed the impending crisis on politicians who have pursued wrong policies since the World War.

Deputies Aspire
to Chief's Post

SACRAMENTO, March 19. (Exclusive)—Howard C. Ellis and H. A. I. Welch, assistant Corporation Commissioners in charge of offices at San Francisco and Los Angeles, respectively, today became candidates for the post of Corporation Commissioner in petitions received by Gov. Young.

Kills and Welch are in the field for the State post in face of rumors in official circles that the resignation of Commissioner Friedlander, effective this month, portends a general shake-up in departmental executives.

Police immediately started questioning Barnett concerning his knowledge of the girl. They stated he denied having even been acquainted with her and had heard of her only through the newspapers.

Barnett admitted to police, it was stated, that he had been in Oakland at the time the murder took place.

Phone Hearing
Witness Scores
Western Electric

SAN FRANCISCO, March 19. (Exclusive)—Testifying today for the city of San Francisco in its efforts to combat a proposed \$7,000,000 rate increase in the Bay District by the Pacific Telephone and Telegraph Company, Frank R. Mc-

Berry, now president of the North Electric Manufacturing Company of Ohio and formerly an executive of the Western Electric Company, declared that the Western Electric charges price out of all proportion to the equipment furnished to the telephone company. Both of the latter companies are controlled by the American Telephone and Telegraph Company.

McBerty produced a number of exhibits which he testified represented shop costs of equipment and said the Western Electric adds as much as 60 per cent to cover overhead and returns a profit. The figure, on the average, is about 25 per cent too high, he asserted.

Bland Honored
as State Poet

SACRAMENTO, March 19. (P)—Henry Meade Bland, head of the English department at the San Jose State Teachers' College and widely known California poet, was given today the title of "The Laureate Poet of California" by the Assembly, with passage of a resolution.

The resolution bestowing the honor upon Bland was almost unanimously voted over perfunctory protests based upon the fitness of the proceeding.

Dr. Bland is the author of "The Ultimate California" and other poems.

KIDNAPING EPISODE
ENDS IN HAPPINESS

GIRL STOLEN TWENTY YEARS
AGO FROM MOTHER
RETURNS TO HER

CHICAGO, March 19. (P)—Twenty years have passed since Anna Nuzzo was kidnapped as an infant, but twenty years of hope was fulfilled today when Mrs. Lucretia Nuzzo clasped her long-lost "baby" in her arms.

A train from California brought the long-sought child home, ending a search which started in 1909, when a neighbor abducted her. The baby was left in the woman's care while the mother was away and that was the last seen or heard of the child. The neighbor, it is known now, went to California and reared the child as her own. However, on her death bed a short time ago, the woman, Mrs. Mary De Franco, told Anna the truth.

Anna began communicating with everyone whom she thought might aid her in finding her mother. Her efforts were successful and this afternoon her mother, two brothers, a sister and numerous other relatives formed a reception committee at the railroad station to welcome her home.

GRAPE STANDARDIZING
MEASURE INDORSED

SACRAMENTO, March 19. (P)—Standardization of grapes and of grapefruit is provided in two bills recommended for passage in the Senate today by the Agriculture and Live-Stock Committee after public hearing last night. Senator Jones of San Jose is author of both bills which received committee approval after objections of Sacramento Valley grape growers on one hand and the Sacramento and Stanislaus county citrus fruit growers on the other had been met in the first instance and withdrawn in the second.

WEALTHY MAN
HELD KIDNAPEROakland Jury Finds Barnett
Guilty of Child TheftLumber Dealer Quizzed on
Murder of GirlPoliceman Identifies Him as
Companion of Victim

OAKLAND, March 19. (P)—David A. Barnett, wealthy lumber dealer of this city, was convicted by a Superior Court jury here tonight on a charge of child stealing. The charge carries a maximum sentence of twenty years in the penitentiary.

Barnett was convicted of child stealing in connection with the disappearance of 5-year-old Elsie Windfield. The case went to the jury of eight women and four men at 3 p.m., and the verdict was announced at 7:30 after the jury came back from dinner.

FAMILY SPARED SHOCK

Barnett's wife and 10-year-old daughter Ruth were not in the courtroom when the verdict was read, but his father, C. L. Barnett of Ohio, was present. Barnett's father broke down and wept. Barnett will be sentenced Thursday.

Further investigation of the death of Mabel Mayer, 16-year-old schoolgirl of Oakland, may result in Barnett facing a murder charge, according to Dist. Atty. Warren.

The Mayer murder case, which occurred July 2, 1927, the date when the child's mutilated body was found, was reopened when Police-
man Pierce of the Oakland force walked into Superior Court here and identified Barnett as the man he had seen on various occasions with the Mayer girl.

DENIES CHARGES

Police immediately started questioning Barnett concerning his knowledge of the girl. They stated he denied having even been acquainted with her and had heard of her only through the newspapers.

Barnett admitted to police, it was stated, that he had been in Oakland at the time the murder took place.

BANKING GROUP
IN NEW ACTIONPacific National Company to
Extend OperationsCapital Boost of \$6,000,000
Voted by DirectorsMove Taken as Further Step
in Merger Program

Directors of the Pacific National Company, holding company for the Pacific National Bank and a number of banks in outlying communities, yesterday voted to increase the authorized capitalization from \$10,000,000 to \$16,000,000, and to increase the number of directors from 11 to 15.

The increase in the number of directors, according to the announcement made by Fred Swenson, president of the Pacific National Company, is to provide for the election of new members now identified with the National Bank of Commerce.

Additional capital stock provided to the resolution to increase the authorized capitalization will not be issued immediately. Mr. Swenson said, and there are no definite plans in mind for the use of these shares.

The directors, he explained, are authorizing the increase in order to provide for possible expansion.

After the proposal is ratified, the Pacific National Company will have an authorized capitalization of 400,000 shares, as compared with the present amount of 160,000 shares.

Combination of the Pacific National Bank and the National Bank of Commerce will build a bank with total resources of more than \$10,000,000, ranking it near some of the other banks in the city.

A substantial interest in the National Bank of Commerce is already owned by the Pacific National group.

Richfield Oil
Branching Out

As the result of greatly increasing fuel oil and gasoline sales in the Pacific Northwest, the Richfield Oil Company of California, as part of its expansion program, has started the construction of 200,000 barrels of steel storage on a nine-acre water-front terminal acquired some time ago in Portland and with the expectation that this built storage will be considerably increased within the next six months.

Among contracts recently closed by Richfield are ones for long term fuel oil with the Hawley Pulp and Paper Company and the Clark-Wilson Lumber Company, both with headquarters at Portland but with a large number of mills in Oregon and Washington.

PUMP UNIT
EXPANSION
PROJECTEDByron Jackson Reported
Planning Absorption of
Dunn Manufacturing

Byron Jackson Pump Company is negotiating for the purchase of the Dunn Manufacturing Company of Oxnard, one of the oldest concerns engaged in the manufacture of oil-field tools, it was learned yesterday.

Although the fiscal agents for the Byron Jackson Company would not confirm the report, it is understood that the Dunn Manufacturing Company has filed notice of sale to Byron Jackson with the court clerk of the 9th dist. at the Oxnard branch of the Los Angeles-First National Trust and Savings Bank.

With the acquisition of this old-established company Byron Jackson will have taken another step in its program of expansion which already has resulted in the purchase of the Rotary Disc Bit Company, United States Tool Company, Craig Oil Tool Company and the Wilson Willard Manufacturing Company.

Through an extensive consolidation program effected during 1928, the company diversified its activities, extending its sales system into many industries and into many parts of the foreign and domestic markets.

Where formerly the centrifugal pump constituted the entire output of the company it is now only one per cent of the production, with 99 per cent in oil-tool supplies.

New Security
Offerings on
Market Today

New financing which will be placed on the market today includes an issue of \$60,000 shares of the newly formed Roosevelt Field, Inc., and a block of school bonds.

A group composed of Edward B. Smith & Co., Aviation Corporation and others is offering the Roosevelt Field shares at \$18. Proceeds of the financing will be used partly to acquire the Roosevelt and Curtis flying fields on Long Island, twenty-five miles from the center of New York, where it is proposed to develop one of the greatest flying centers in the country.

William R. Staats Company is offering a \$70,000 issue of Downey Union High School District, 5 per cent bonds, due 1933-1935, inclusive, at prices to yield 4.75 per cent. The assessed valuation of the school district, located twelve miles southeast of Los Angeles and including the city of Downey, amounts to \$1,140,000 as against a total bonded debt of \$280,000.

London Market
Tone Irregular

LONDON, March 19. (Exclusive) Trading was on a less active scale on the stock exchange today with price movements irregular.

The mining group was in better demand with Rio Tinto issues a strong feature. Dunlop was in demand. General Electric, Ltd., was steady, and Ford Motors, Ltd., held around \$3 1/2 1/2.

The industrial tone on the whole had an irregular touch. Tobacco and textile issues were steady. Columbia Graphophone was easier, while Victor and HMV Gramophone had steady tone. International Nickel and Chemical issues were easier.

The oil list was dull, while rubbers had a steady tone.

The gilt-edge division had a firm tone. Foreign issues were steady with French rails in demand. Argentine rails were in fair demand. Canadian Pacific was lower.

Oil Stock Goes
on Mart Today

Financing for the Federal Oil Company, one of the latest oil drilling and production companies formed in California, will be inaugurated today with an offering of 3,000,000 shares of \$1 par value capital stock to DeFespina & Co. Proceeds of the financing are to be used for an expansion of drilling operations. The company will operate as a development and production company only. It has an authorized capital of \$15,000,000 in one class of stock. There are no bonds or fixed indebtedness.

REFINERS CHECK UP SALES

Six-Cent Boost Means Increase of \$50,000,000 in
Year's Business; Retail Level Indefinite

BY EARLE E. CROWE

Gasoline refining companies were busy yesterday checking up on the increased revenue that should accrue from the 6-cent advance in gasoline prices, and balancing these estimates against the losses taken during the last two months and a half of price cutting. Figured on the gallonage sold in the last six months of 1928, the refining companies in California stand to benefit by nearly \$50,000,000 if the new price level is maintained for the remainder of the year.

Gasoline to dealers is now at 15 1/2 cents. This is the price the refining companies receive for their product, and compares with 9 1/2 cents received in the last several weeks. The posted wholesale price, which in effect is the retail price, is 18 1/2 cents, but since the refining companies operate directly only at a few stations the 3-cent differential does not figure in the calculation of increased revenue.

Up to last night there still was some doubt over the level of retail prices in the city. Dealers' stations from the major refining companies presumably will sell at 18 1/2 cents in order to obtain the 3-cent profit, but there was not noticeable hesitancy on their part to take the jump. It may be that a mixed level of retail prices will result, with some dealers selling at 15 1/2 cents, or cost, others at 16 1/2 cents, and so on.

But so long as the refining companies abide by the price of 15 1/2 cents to dealers the 6-cent increase will accrue, no matter what the level of retail prices without some of the refiners reverting, however, to the practice of giving larger concessions to dealers, then the war will be on again.

Assuming that it costs about 10 cents a gallon to refine gasoline and deliver the product to the retailer, a price of 15 1/2 cents allows a profit to the refiner of 5 1/2 cents a gallon, after taking out the 3-cent State tax. Against this profit the refiner is the 3-cent profit that the dealer theoretically is to receive if gasoline is sold to the consumer at 18 1/2 cents a gallon.

SALES TO BENEFIT
Gross sales of the leading refiners will be considerably increased by the 6-cent increase in the remaining nine months of the year. Standard of California, stated, should report an increase in sales of approximately \$10,000,000 on the basis of the gallonage sold by this company in the last nine months of 1928.

Shell Company, which sold about 130,000,000 gallons in the last nine months of 1928, should show an additional profit of approximately \$7,000,000 in sales. Richfield, without the inclusion of its properties in the American Petroleum Corporation, should benefit by \$5,000,000, and Union by \$5,000,000. Associated stands to receive an increase of \$4,500,000.

Signal Oil and Gas, manufacturer of natural gasoline, estimates that its net benefit from the 6-cent rise is about \$100,000 a day, or \$360,000 annually, or more than the annual dividend requirements of \$360,000.

Earnings of Mills Alloys, Inc., thus far this year are running at a rate in excess of \$300,000 annually, Oscar J. Mills, president, stated. The company has under way an extensive sales program to introduce its products in areas oil-producing fields in the United States and South America.

Mills Process Alloys, Inc., which was acquired by Mills Alloys, Inc., in January of this year, earned total profits of \$163,556 after Federal taxes for the year ended December 31, 1928, Mills, president, stated. The net earnings are equal after dividends of \$400,000 to the year A share to the approximately \$1.04 a share to the 30,000 shares of B stock outstanding at the end of the year. Including the 31 shares of the new A stock, the management is developing a charge, the earnings were in excess of \$200,000.

Canadian Bank
to Open Branch
in California

SAN FRANCISCO, March 19. (Exclusive)—Marking inauguration of a new policy, the Canadian Bank of Commerce, with head offices at Toronto and more than 800 branches in Canada, this country and abroad, has applied for and received permission from State Bank Supervisor Wood to organize the local branch of the bank in this city as a California State bank.

Articles of incorporation are to be filed immediately with the Secretary of State Jordan. The institution will be known as the Canadian Bank of Commerce (California).

It is in order to become more closely associated with local business interests that the head office of the Canadian Bank of Commerce has decided to turn the business of the San Francisco branch into a State bank, it was explained.

The authorized capital of the new bank is \$5,000,000 of which \$1,300,000 will be paid up, \$1,000,000 allocated to the commercial department, and \$2,700,000 to the savings bank department. In addition to a paid-in surplus of \$250,000. The shares will be held by the parent corporation with the exception of the holdings of the directorate.

Ticker Service
Rise Approved

SAN FRANCISCO, March 19. (AP)—An increase of \$5 a month in rates for stock ticker service was authorized by the State Railroad Commission today in response to a petition by the Western Union Telegraph Company. The permission was made conditional upon installation of new high speed automatic tickers.

Cities in which tickers are operated include San Francisco, Los Angeles, Hollywood, Pasadena, San Jose, Stockton, Fresno, Sacramento and Oakland.

Stockholders of the Q. R. S. Company, manufacturers of radio tubes, motion-picture equipment and player piano rolls have been called to a special meeting in Chicago April 12, next, to vote on a change in the financial structure of the company in connection with the acquisition of business and patents of the very Corporation, it was announced yesterday. Directors have recommended an increase in capital from 75,000 to 400,000 shares, giving rights to stockholders to subscribe for three new shares for each one held.

NEW VENTURE IN
AIRCRAFT FIELDEmco Aircraft Organization
AnnouncedCorporation Has Capital of
\$1,000,000Site Bought; Work on Plant
Starts Soon

Launching of an airplane manufacturing enterprise under the name of the Emco Aircraft Corporation was announced yesterday by E. M. Smith, Los Angeles industrialist. The company will have an authorized capitalization of \$1,000,000, of which \$500,000 will be outstanding, all of which has been subscribed for by Mr. Smith, his friends and associates. Preliminary organization was completed Monday night at a dinner given at the Athletic Club by Mr. Smith.

Purchase of a forty-acre site near Downey has already been made, upon which a modern airplane manufacturing plant will be erected immediately. Mr. Smith has already let the contract for the construction work, and expects that the plant should be ready to go on production in about six weeks.

As the nucleus for the company, Mr. Smith has purchased the Albatross Aircraft Corporation of Long Beach, a company that has manufactured and sold eight airplanes, and is now turning out the ninth. Charles P. Rocheville, designer of the Albatross, will come with the Emco company as vice-president and director.

Under his engineering direction, the Emco Aircraft Corporation will manufacture all types of aircraft, including amphibians, and small and large planes. The company has made an intensive investigation of the field before taking steps to form his company. His other interests, to which the Emco Aircraft Corporation will now be added, include the Emco Derrick and Equipment Company, E. M. Smith, president, Emco Refractories, Emco Clay Company, Western Forging Company, and National Tools and Metals Company.

Members of the directorate of Emco Airplane, as announced by Mr. Smith, include: Fred Swenson, president, Pacific National Company; Robert E. Milligan, contractor and director, Pacific National Bank; Wayne H. Fisher, captain; Harold Baker, vice-president and general manager, Western Auto Supply; H. O. Steele, president, United States Electric Company; J. L. Leach, president, Western Malleable Iron Works; I. W. Fagua, former president, California Petroleum Corporation; T. J. Crumrine, president, Eureka Casualty Company, and T. A. Young, of the Loftus Land Company. Other directors will be named later.

Daily Average
Oil Output in
Sharp Decline

NEW YORK, March 19. (AP)—The daily average gross crude oil production in the United States declined 40,000 barrels for the week ended the 16th inst., totaling 2,825,100 barrels, the Bureau of Mines, summary of the American Petroleum Institute today. The daily average production east of California was 1,285,500 barrels, a decrease of 35,100.

Daily average production west of California was 1,539,600 barrels, a decrease of 45,100. The daily average production of California was 1,539,600 barrels, a decrease of 45,100.

ANACONDA PRESSING STEEL

Earnings of Copper Company in 1929 Promise to Give
Industrial Giant Close Race for Lead

BY JOHN F. STINCLAIR

NEW YORK, March 19.—The United States Steel Corporation is having a stiff race for leadership in the industrial field, not considering General Motors. The spectacular rise of copper has brought before the country in recent years the Anaconda Copper Mining Company.

In 1928 the United States Steel Corporation earned, after taxes, interest and depreciation, about \$14,000,000 or about \$12.50 a share on its then 7,116,238 shares of common stock outstanding. This was about a 50 per cent increase over the amount of net earnings for the preceding year.

But the Anaconda Company will give the United States Steel a close run in 1929. For assuming that the price of copper is 19 cents a pound, Anaconda should earn \$103,500,000 after depreciation and Federal taxes. This would be equal to \$13.75 a share on all common stock outstanding, provided all stockholders exercise their right under the recent offer to subscribe for two shares of Anaconda at \$55 for every five shares held April 30.

And copper is now selling for 21 cents a pound.

John D. Ryan, most powerful figure in the copper industry, and chairman of the board of the Anaconda Company, has just eleven lines in "Who's Who."

He is now 55 years of age and was born in Michigan. He went as traveling salesman into Montana, where he became interested in copper and power.

He was appointed by President Wilson as director of aircraft production during the war, and was assistant Secretary of War for a few months in 1918.

Mr. Ryan's business policy seems to have been to concentrate on

the big plans center about the establishment of an international bank with capital of \$100,000,000 or more, privately subscribed. The bank, located probably at Brussels, will serve as a clearinghouse for international debts, not only those Germany owes but those which the Allies owe among themselves and to the United States.

But whether this is carried out now or at some future time the idea is basically sound, and it is in

the hands of the copper industry, and chairman of the board of the Anaconda Company, has just eleven lines in "Who's Who."

An Advantageous Investment in Bank Stocks

The history of the affiliated banking institutions of the First National Corporation of Portland invites the confidence of conservative investors.

The First National Bank of Portland, holding the oldest national bank charter west of the Rocky Mountains, has paid dividends continuously since 1871. The Security Savings and Trust Co., the Security Safe Deposit Co. and the Bank of East Portland are well established and have each shown marked success.

The Corporation has been or-

ganized to extend the services and facilities of these institutions in a territory which offers favorable and fundamentally sound endowments for expansion.

The Class A Stock of the Corporation is non-callable and participating, offering investors a full share in the success of the organization. The book value, determined on conservative basis, is in excess of offering price of the stock; and the yield is above the average offered by similar securities equally sound.

LOS ANGELES CURB

Oil shares held the center of trading interest on the Los Angeles Curb Exchange yesterday as other divisions of the market showed a tendency to turn to lower levels. Continental Oil led the section in activity and closed at 26 1/2, up 1/2 net.

Hancock Oil Company rallied 1-4 point to 44 on a brisk turnover and

Universal Globe, Exeter and Mexican Seaboard all showed fractional improvement. Airplane stocks continued to hold their dominant position in the market activity, but eased lower for the most part. Fokker was an exception, up 1/2 to 38. Western Air Express, and Aviation Corporation held firm.

Sales totaled 147,932 shares valued at \$787,378.

TONE UNSTEADY

(Continued from Twelfth Page)

primarily by interior banks, and the New York banks appeared to be unwilling to replace them.

In addition to higher nonferrous metal prices, the day's industrial prices included the ending of the gasoline price war on the Pacific Coast, and reports that crude oil production figures will show a substantial reduction, for the second successive week. American Surety placed its new stock on a \$5 annual dividend basis, equal to \$12 on the old, which paid \$10. F. W. Dodge Corporation reported that building contracts let during the past week showed a marked gain, and reports from the steel district described still further acceleration of production.

Greene Cananea led the support with an extreme gain of 7 points, touching a record price at 197. Anaconda, Chile, and United States Smelting were other top doers, showing new high ground, and National Lead gained a new peak. In the steel district, Bethlehem reached a new peak, then reacted, and United States Steel moved up about 2 points, only to lose its gain.

British operations were switched to the rails for the first time in several weeks, but failed to meet with much success. Investors remain that it is extremely difficult nowadays to get a public following in this group. New York Central, Erie, St. Louis, Southern Railway, Norfolk and Western sold up 2 to 3 points.

Crosby Radio, Lambert International Business Machine, National Cash Register, Underwood-Singer, and other electrical and mechanical companies showed a general upward movement, with a point or more to a point and a half. Baldwin Locomotive again edged upward, making an extreme gain of 13 points, and Case Threshing added up to 15 points.

In the oil Standard of California rose to a new peak at 36 3/4 and Barnard "B" sold up 6 points to within a point of its 1929 record price.

Radio shares were again under pressure, the old stock tumbling 15 points to 45, and the new stock selling down 6 points to 95, but rallying slightly toward the close. Radio Shack, Electric Auto Line, and other radio shares were steady, although starting cables ruled slightly lower during most of the day. The Spanish postal railroad, conversely, again getting above 15 cents.

SALT LAKE MINES

SALT LAKE CITY, March 19. (Radio.)—The stock market here today was characterized by a general upward movement, with a point or more to a point and a half. Baldwin Locomotive again edged upward, making an extreme gain of 13 points, and Case Threshing added up to 15 points.

Transcontinental Air

At the time we first advised the purchase of Transcontinental Air stock, it was selling at \$19. Recently it has sold at \$44. We have urged the purchase of Transcontinental Air since it sold at \$20. We believe that present buyers at today's prices will reap a splendid profit.

Principal stockholders in Transcontinental Air Transport, Inc. are said to be the Santa Fe and Pennsylvania Railroad and the Wright and Curtis Airplane Companies. The company's executive personnel includes the illustrious Col. C. A. Lindbergh.

It is said that some time between May 1st and Nov 1st the lowest average, in comparison with the Pennsylvania and Santa Fe Railroad, is a five-hour coast-to-coast run in time-traveling at the rate of 14 passenger cars per day.

This opening will do much to give volume of national publicity, and we believe should bring a good return in the price of this stock.

House Hunting Made
Easy Through Times Ad.

Vacant Real Estate Earns No Money!

No matter how well located, unimproved property is not a producer... but, take this same piece of land, especially in metropolitan Los Angeles, and add to it a business structure, an apartment house or hotel and you have immediately earned an asset.

Pacific States Realty Improvement Co., Ltd. lays only with income improvement in mind

This unknown company, headed by Mr. Louis M. Helper, president, lays property only for immediate producing income. The company's position is reflected in its only in Board of Directors, its close major divisions (Real Estate, Real Estate & Insurance), but in the confidence with which the investing public has received in recent offerings by the company which has been gained upon by Messrs. Helper & Helper, Attorneys.

Insurance Stock Trust Shares

SERIES F
A New Investment Trust of
UNITED STATES SHARES CORPORATION

Empire Trust Company, New York, Trustee

This trust is composed of stocks of leading insurance companies deposited with the trustee, against which are issued certificates of interest, or trust shares.

Portfolio includes shares in sixteen companies ranging in age from eleven to 135 years.

Seven-year record of stocks in this group from 1922 to 1929 is as follows:

Total market appreciation	228.96%
Average annual appreciation	32.71%
Average annual cash income	12.86%
Combined average annual income and appreciation	45.57%

Count of the business of insurance holds promise of continuation of progress.

The new trust will be a companion to Bank Stock Trust Series C-3, composed of stocks in New York banks, which was one year old March 13, 1929.

Record of C-3 trust has been as follows: Annual income on original offering price over 9%. Increase in market value in one year, 62%.

With the growth and other developments in New York banking C-3 trust also holds promising future prospects.

Insurance Stock Trust, Series F, will be under the same management which has made Bank Stock Trust, Series C-3, such a conspicuous success. A specialized department with broad statistical information and facilities will continuously study and analyze insurance stocks available for investment under the terms of the trust indenture. This department will be under the direct supervision of the insurance investment committee, composed of Robert Van Iderstine, who is a director in fourteen insurance companies; Leslie C. Stuts, former partner in Ralph B. Leonard & Co., insurance stock specialists; and Paul Clay, former Vice-President and Chief Economist of Moody's Investors Service.

Orders may be placed through leading investment houses and banks. Price at the market.

"These were the flags for which 1,000 Germans died," he told his sons. "They died for the honor and national assertion of the Fatherland. We must not abandon them in the growing generation and the ideals of the Fatherland live before them."

Trask was corrected. Superior Judge McComb yesterday signed his name where the nineteenth century judge had failed to affix a signature.

So Earl Wallace is free to marry again. Superior Judge Trask was the jurist who neglected to use his pen in Mr. Wallace's behalf.

HOUSE NEED PAINT?... THEN REMEM

There are 2 ends to a PAINT BRUSH

*in the handle end, you need a skilled painter
on the bristle end, pure lead paint*

JUST around the corner—somewhere in your community—are the two famous painting persons. They are the master painter and pure lead painter. The master painter you'll know by his reputation and by another sign. He uses pure lead paint, the paint that for generations has weatherproofed walls and other surfaces exposed to the weather, and does the same thing for stucco.

With lead paint, made of Dutch Boy white-lead, the skilled painter covers stucco with a durable finish that keeps out dampness and moisture... and prevents cracks forming in the stucco. And he can give you exactly the tints or shades you want because he mixes and colors this paint specially for each job.

Write us for full information about using pure lead paint on stucco. Also request a new booklet, "The House We Live In."

CITY HOMICIDE RATE HELD LOW

Los Angeles Keeps Under American Average

Chief Davis Offers Figures to Police Commission

Vigilance of Police Called Reason for Record

While the average homicidal rate in 136 American cities is 10.3 per 100,000 of population, that for Los Angeles is only 4.7, Chief of Police Davis reported to the Police Commission yesterday.

He explained that the figures were obtained from the report of Frederick L. Hoffman, consulting statistician for the Prudential Insurance Company, and that they are very gratifying to any one with real pride in the city of Los Angeles.

The chief cited figures from six cities of more than 1,000,000 population, showing that Detroit leads the nation in its high homicidal rate, while among the major cities that of Los Angeles is the lowest by a considerable margin.

FIGURES QUOTED

Detroit, with a population of 1,378,800, had 229 homicidal deaths last year, with a rate of 16.5 per 100,000 persons.

Chicago, with a population of 3,197,600, had 486 homicides, a rate of 15.8.

Cleveland, with 1,010,300, had 134 homicides, a rate of 13.3.

Philadelphia, with 2,064,300 population, had 162 homicides, a rate of 8.8.

New York, with 6,017,500 population, had 401 homicides, a rate of 6.7.

Los Angeles, with 1,500,000 population, had 70 homicides, a rate of 4.7.

PRAISE VOTED

"I believe that your honorable body," wrote the chief in this report, "will find cause for considerable satisfaction in this record, which is excellent evidence of the fact that lawlessness in the field of

LIGHT CHEAP--YOU'RE IN AVALON

William Wrigley, Jr. Reduces Price of Electricity and Gas on Catalina Island and Boardwalk Turned into Lane of Brilliance

A slash in public utility prices was the parting gift to the city of Avalon made by William Wrigley, Jr., as he boarded the S.S. Catalina for the mainland, where he will pass a week at his Pasadena home before returning to Chicago.

The price of electricity is to be cut to 7 cents per kilowatt and gas to \$1.50 per 1000 cubic feet. When Mr. Wrigley took over the operation of the Avalon public utilities in 1922 the price of electricity was 16 cents per kilowatt and gas \$3 per 1000 cubic feet. Since that time he has expended \$600,000 in new equipment and buildings for the plant.

All the street illumination of Avalon and the power used in the

operation of salt water pumps for the various reservoirs for fire protection is free to the city.

During 1928 the electric plant produced 1,380,582 kilowatts and 21,833,395 feet of gas were manufactured from oil brought to the island from the mainland on barges.

Actual cost of electric light globes for street illumination and compilation of candlepower show the city of Avalon to have more illumination for its area than any other city in the world.

A new arch trellis lighting system has been installed on Avalon Boardwalk, extending from the city of Avalon to Descanso Bay and past the new \$2,000,000 theater building on Sugar Loaf Point. A million twinkling lights now illuminate Avalon Boardwalk.

crimes of violence is being controlled in effective fashion by the officers working under your direction. I feel quite sure that our constantly maintained enforcement efficiency in the liquor and narcotic fields, has a direct bearing on this low homicidal rate.

Every large city will always have a certain number of homicides in which the motives are accounted for by human emotional entanglements. Over these the police can exert no particular control. Homicides resulting from forces organized in contempt of law can be, and are held down to a minimum by good hard, honest police work.

The commission unanimously voted to commend the showing of the department made in the report.

WOMAN BREAKS LEG IN FALL ON BROADWAY

Mrs. Elizabeth Harding, 44 years of age, of 2638 Arvin street, suffered a broken right leg and fractured left arm yesterday when she fell to the sidewalk on Broadway between Third and Fourth streets. She told surgeons at Georgia-street Receiving Hospital that she slipped on a piece of orange peeling. She was given emergency treatment and removed to her home.

FOR COLDS

BAYER

ASPIRIN

To break a cold harmlessly and in a hurry try a Bayer Aspirin tablet. And for headache. The action of Aspirin is very efficient, too, in cases of neuralgia, neuritis, even rheumatism and lumbago! And, there's no after effect: doctors give Aspirin to children—often infants. Whenever there's pain, think of Aspirin. The genuine Bayer Aspirin has Bayer on the box and on every tablet. All drugists, with proven directions.

REPLY GIVEN TO STOCKER CLAIMANT

Attorney for Estate Says Baldwin Paroled After Mental Examination

Francis J. Heney, attorney for the Clara Baldwin Stocker estate, said yesterday that he has learned the man giving the name, George Winfield Baldwin, for whom Attorney Griffith Jones filed a contest Monday against the Stocker will, was released from parole from the psychopathic ward of General Hospital last November.

Inquiry at the police department brought the statement from Detective Lieutenant Richard J. Hart, in June, 1927, a man giving the name George Baldwin went into Central Police Station and because of his condition was taken to the psychopathic ward. Records there show the man was found by the City Attorney to be suffering from mental illness and was paroled to Harry J. Brown, assistant parole officer, and to Ingleside Sanatorium. Further records show a dismissal of parole last November. The man gave the name of Mrs. W. T. Hart, Fond Du Lac, Wis., as a relative. Jones filed a contest against the Stocker will, disposing of some \$15,000 of property, in which Baldwin asserted he is a son of Mrs. Stocker and lays claim to inheritance. He said he came from Fond Du Lac.

JUDICIARY HAS EYES ON COUNCIL

Conference at Sacramento to be Watched Eagerly by Judges and Attorneys

Deep interest was being displayed yesterday by Southern California judges and attorneys in the scheduled conference tomorrow at Sacramento of the California State Judicial Council and the Senate Judiciary Committee. Discussion of legislation affecting the State judiciary, now pending at the Capitol, is the announced purpose of the conference.

Speculation exists over the possible action of the council in the matter of the legislative bill to provide for the establishment of a third division of the District Court of Appeals in Los Angeles. Such a bill is now pending. Superior Judge Holler, research secretary of the judicial council, said before his departure for Sacramento last night, "Establishment of an additional division of the Appellate Court here would necessitate the appointment of another presiding justice and two associate justices. Location of the proposed new division is being sought by San Joaquin, interests, it is said."

LOBBYISTS FOR COUNCIL REPORT

(Continued from First Page)

sponsored by the City Council are meeting with some opposition. The committee reported, but confidence was expressed that Attorney Harold Cragin, representing the city, will be able to obtain their passage. In addition to interviewing members of the Legislature in the interest of the bills, the committee reportedly also discussed them with Gov. Young.

BANDIT'S MAUL THEIR VICTIM

They Tie Him, Put Cover Over His Head, Knock Him Out and Pile Sugar on Him

Anything but gentle were the two bandits who held up a C. P. P. man in a Safeway store at 5529 Central avenue yesterday morning. After they had produced guns they tied a dirty handkerchief about the victim's mouth, then drew his apron up over his head and tied that tightly about his neck. They then turned him around, told him to stand still a moment and knocked him out with a blow to the jaw.

And then not content with this manhandling they dragged him into a corner of the store and piled a number of heavy sacks of sugar on top of him.

A few minutes after the bandits had departed with \$362 A. Riekman, a clerk, found the store manager and released him.

FITTERS PAY RULING NEARS

County Auditor Expected to Ask Legal Opinion Today in Salary Muddle

An opinion on the legality of the payment of the \$12,000 annual salary of Dist. Atty. Fitts which is asserted to be technically illegal and in dispute with the county charter will be requested today, County Auditor Payne announced yesterday.

The County Board of Supervisors voted a rise in the District Attorney's salary from \$8000 to \$12,000 annually, to go in effect July 1, last, but the asserted technicality provides that the salary of no county officer may be increased within ninety days of his election. Fitts was declared elected at the primary of August, last.

In the event that County Counsel Mattoon advises County Auditor Payne to refuse payment on the Fitts salary warrant, it is expected that the matter will revert to the Board of Supervisors for further consideration and action.

The Supervisors meet today to consider other important questions.

CRYER'S LIBEL ACTION FILED

Defamation of Character Charged to Shuler

Preacher Due to Answer in Court Today

Mayor Recites Attacks Made in Magazine

(Continued from First Page)

assertions attempted to place him in the same class with other public officials who have been indicted, convicted and sentenced to prison.

City Executive Demands Exoneration

Mayor Cryer signing complaint against preacher that will bring accused before court today on criminal libel charges.

AL JOLSON'S AUTO RUNS MAN DOWN

Comedian Takes Victim to Receiving Hospital; Chauffeur Exonerated

Al Jolson's automobile last night knocked down Leo Kinn, 36 years of age, of 608 Spruce street, while he was walking across Sunset Boulevard at North Broadway. Jolson and Jack Conway, a motion picture director, were passengers in the car at the time with the comedian's chauffeur, James Donnelly, at the wheel. Kinn's left leg was broken and several teeth were knocked out.

CALLIE GRIMES ON TRIAL TODAY

(Continued from First Page)

Grimes, who was presumed to be a State's witness, after a month she was traced to San Francisco and Phoenix and finally captured in a hotel in El Paso, Tex. On her return today she is to make a statement to the District Attorney or aid the prosecution in any way.

INCUBATOR BABY'S DEATH INQUIRY SET

A one-day-old boy was found dead yesterday in an incubator at the California Lutheran Hospital, and as a result a coroner's investigation is to be conducted. The infant was born Monday to Mrs. John D. Keirns of 2134 Palm Grove avenue.

DANCE DATE CHANGED

The Portia's Daughters of Southwestern University will give a dance April 5 at the Alexandria. The date, which originally was the 28th inst., has been changed so as not to conflict with the Easter vacation. The affair will be carried out in cabaret style.

KIWANIS PLANS LISTED

The business standards committee of the Los Angeles Kiwanis Club will have charge of the weekly meeting today noon at the Biltmore. President Alfred G. Fuller of the Fuller Brush Company of Hartford, Ct. will speak on "The Golden Rule in Business." There will be a musical program for this meeting. Frank C. Ingram will be chairman of the day. On the 27th inst. the Los Angeles Kiwanians will observe Father's Day.

SOMEONE MUST STOP TIRADES, HE SAYS

Cullen B. Tate, film director, arrested late Saturday night with Miss Frances Hamilton, 19-year-old Pasadena society girl, following an automobile accident on San Vicente Boulevard, yesterday before Municipal Judge Rogge pleaded not guilty to charges of being drunk and possessing intoxicating liquor and asked jury trial on each charge.

TATE WILL STAND TRIAL ON CHARGES

Miss Hamilton, who resides at 1776 East Villa street, Pasadena, previously pleaded guilty in Municipal Judge Bullock's court to a charge of drunkenness and paid a \$10 fine.

According to Police Officers Miller and Wallace, the two were sitting in a roadster in front of 11976 San Vicente Boulevard, where the car had collided with a small truck, when they were arrested. Both were fashionably dressed and, according to Miss Hamilton's father, were returning from a wedding party. The officers reported they found two quart bottles of wine in the car.

At Sawtelle Police Station, the officers declare, Tate threatened to "get their jobs" for making the arrest. Miss Hamilton, they said, asserted she is a personal friend of Secretary of State Stimson.

Judge Rogge released Tate on bail pending trial and set the date for his trial on the drunk charge for April 9 and on the liquor charge for April 17.

THE REVOLT IN MEXICO

The Mexican revolt, more pretentious if not more serious than any since Gen. Obregon first became President, has suffered such serious reverses that it now seems likely to draw to the customary futile conclusion—in this case, guerrilla warfare in the Sonora mountains. The retreat of the rebel forces from Torreon, a natural stronghold comparatively easy to defend, has made apparent the almost hopeless weakness of the near-revolution's military side. Apart from the loss of a strategic advantage, this tacit confession of weakness on the part of Gen. Escobar is likely to have a demoralizing effect on the morale of his followers.

Nothing has been accomplished by the revolution except to plague and perplex a country that has need of years of peace and restoration, to add to its burdens, to cause needless loss of life and property. So far as could be discovered, the revolution had no program; the revolt was based almost wholly upon a desire of the puts to be in. One or two individual leaders spoke vaguely about a settlement of the church question, doubtless as a bid for clerical support, but apparently little if any clerical support was forthcoming. Its lack may be viewed either as evidence of the sincerity of church leaders in their opposition to the revolution, or as recognition by them that the flare-up was, in fact, almost purely political and with small chance of rebel success.

The revolt had an early and flashy surface success, and with genuine popular support might have continued to gain strength until it resulted in the overthrow of President Portes Gil's administration. The various coups of the rebel leaders were well planned; they struck at the seaports and railroad centers, and had they been able to hold such places as Vera Cruz, Monterrey and Torreon would at least have embarrassed the government very greatly. But their followers lacked the enthusiasm of men fighting for a real cause, and for the most part melted swiftly away or flocked to the government standards as soon as these were raised again.

It is not the province of outsiders to take sides in the political or military controversies of another country, or to say to Mexicans what sort of a government they shall have, or what institutions or laws that government shall set up. But the history of humanity has shown that best results are obtained when some form of government is chosen and stuck to long enough to demonstrate whether or not it will work, and when necessary changes are made by peaceful persuasion. To make changes with the ballot box requires more time, but the results are more permanent.

Several of the revolutionary leaders declared themselves inheritors of Obregon's mantle, and at the same time declared their intention of junking the constitution of 1917, which was largely Obregon's work.

Esposal by professed Obregonistas of policies directly contrary to those of Obregon also was a curious anomaly. Up in China, either hand or direct political programs of the revolution that the conclusion is inescapable that the real basis of the revolt was personal ambition of military leaders who considered Gen. Calles out of the picture and believed they could safely rely on Calles's support. These generals without doubt would have started fighting among themselves, to continue until the strongest came out on top—a repetition of the history of the decade between 1910 and 1920. The administration of President Obregon was at the beginning practically a military dictatorship, but he and his successor sought to end this sort of rule and establish in its place self-government based on public opinion.

Many Americans disagreed with concrete policies of the Obregon administration, but with their general purpose there was sympathy, and the coming of the civilian, Portes Gil, to the Presidency was hailed as another step away from military government and toward stable political conditions.

Gen. Calles has just reiterated the sentiment he expressed when he retired from the Presidency, when he recommended that Mexico "make a final effort to pass from the category of a people and a government of a dictator to the higher, more dignified, more useful and more civilized condition of a nation of institutions and laws." It is evident there are still military leaders who prefer a dictatorship. If they can be dictators.

Failure of this latest revolt may possibly mark the last gasp of the military system. When a government can sustain itself by the force of public opinion alone, Mexico will have reached a goal. When the ease with which the recent revolt was launched is considered, that goal may seem far distant; but when it is considered that President Gil must have been supported by a large body of public opinion, as well as by the army, it is evident that real progress has been made toward it—as much, perhaps, as could be expected or even hoped for in view of Mexico's past troubled history.

Except foreigners, every adult in Mexico's present population was born under some form of military dictatorship, a fact which explains much to those disposed to be impatient.

SPOILING THE LAND
 The chief losses in the Mexican embroilment will be the railroads. Of course there is some loss of human life, but in most cases it is found that such tragedy does not materially affect the welfare of the country. But the roads are of vast importance. The rebels need them and use them, but when the trains and tracks are in the possession of the revolution, the other side is tempted to wreck or destroy or overwhelm. So it is that bridges are dynamited, rails torn up and trains dynamited. Afterward everybody will be sorry, but it will take months of time and millions of money to bring the restoration that is so essential.

ON THE MICROPHONE

Some of these speakers who are being heard over the radio are just talking for the love of Mike.

LEE SIDE O' LA

By Lee Shippey

WE NEVER saw such a town as this for big business. Hokey-poke and tamale vendors are controlled by corporations. Auto parking is being the small business of each individual vacant lot owner, is in the hands of financiers who control dozens.

Tortilla making, in all Latin American countries is handled by factories. Theatrical make-up is at the call of either amateur or professional, nearly all the skilled make-up artists being in a combination. That may explain why so much unskilled work is seen on the streets.

Family Washing, 1929

And now the business of washing motor cars has become as far removed from the old-fashioned ways as the steam engine from the old-fashioned mammy who used to wash the clothes in the creek. There are at least three car-washing concerns here which rank among our industries.

Modern Car Laundry

At Ninth street and Western avenue we watched a long line of cars go through a modern car laundry. First each car was opened up and dusted with an air-blower with 175 pounds pressure. Then the car was put on an endless chain, moving very slowly, while four men hosed it thoroughly with water. From them it went on to four other men who handwashed it, going into every crevice with cloths and brushes, and then to another crew who bathed it once more with a harmless solution of kerosene, while a man on a raised platform scrubbed the top with a Tony Jackson brush. Next it went through a series of high-powered blowers forced the water out of all cracks, and the car passed to another crew which chamoised it. Nickel polished.

It was followed by vacuum cleaners and window cleaners, and then it was rolled out for inspection and final touches, while the customer was asked to point out anything he didn't like to his satisfaction. Next it was rolled on to apparatus which elevated it, so that lubrication could be shot into it, with hose, at such high pressure as to force out all old lubrication.

Beas Father's Sunday Record

First to last, more than sixty men, each equipped for the one job he had to do, worked on that car as it passed slowly before him. None ever had to lay down one implement and pick up another—each did his own job and left the other jobs to other men. And the team work was so perfect that the entire series of operations lasted only twenty minutes!

FLOOD IN THE SOUTH

While the National Red Cross has made no national appeal for funds to relieve the flood sufferers in Alabama, Georgia, Florida and Mississippi, it has announced that all Red Cross chapters are to receive voluntary contributions and it is believed enough will be forthcoming in this way to meet the emergency. There are thousands homeless and the danger is not past, especially the danger of disease. There also will be need for rehabilitation. California has always been generous to such relief funds, and should do so in this case.

In general, the area flooded, the loss of life and the physical damage done are much smaller than in the Mississippi flood of year before last, but the distress is not less acute to those involved. Where conditions are bad, they are as bad as they were in the Mississippi disaster, and the need for aid is great.

Fortunately, another Mississippi flood is not expected at the present time and the highest flood stage calculated now will not tax the existing levees, it is believed. Heavy rains and sudden weather in the upper reaches of the river may of course upset these calculations.

Inundations of this nature, which are experienced every year in some part of the country, point the need for flood-control work on every stream of importance. The flood problem can be solved by engineering skill, given time and money, and in the long run it would be a paying investment.

PRICE OF GASOLINE

Many motorists, seeing the signs of "Gas 18c," yesterday, regretted that they had not had their tanks filled up the day before. But they might have known that the so-called gasoline war would not last very long, and so should have been consoled by the reflection that they had been enjoying low prices.

Which it still is our mission to do. But for ages and ages and ages must toll every waking moment of strain for honor or glory or wages I feel inexplicable pain.

The coral bugs under the ocean. Continue to toll till they drop. But because of their earnest devotion a few of them get to the top. But, though we're vastly more clever than they, we're still working through. Forever and ever and ever. And still there'll be more work to do! (Copyright, 1929, by the Bell Syndicate, Inc.)

NO HOPE

By James J. Montague
 Mr. Edison says that the race has not accomplished a million part the task that has been set it. Averse to the curse of hard labor I not only pity myself But also feel sad that my neighbor Must toll like a horse for his pelf. I photograph this side of forever The race, having done its hard best, Might cease for all time from endeavor And begin a perpetual rest.

I had hoped that the time was approaching When effort would be at its neap And the time clock would cease from encroaching On the glorious hours of sleep. These thoughts on the evil of working Apply not at all to my case. I am a paucity prospect of shirking; My pity is all for the race.

And now, when I read the assertion That we are not a millionth part of the earth, I am staggered. The hard and distressing exertion Which it still is our mission to do, But for ages and ages and ages Must toll every waking moment of strain for honor or glory or wages I feel inexplicable pain.

The coral bugs under the ocean. Continue to toll till they drop. But because of their earnest devotion a few of them get to the top. But, though we're vastly more clever than they, we're still working through. Forever and ever and ever. And still there'll be more work to do! (Copyright, 1929, by the Bell Syndicate, Inc.)

WHERE CAN I LEARN
 Piano?
 BY LOUISE L. TEMPLE
 [Prepared in co-operation with the Los Angeles evening high schools. Questions concerning free evening classes will be answered if stamped addressed envelope is included. Address: Louise L. Temple, care of The Times.]

Beginners and advanced pupils may receive free instruction on the piano at the Franklin Evening High School, 830 North Avenue Fifty-four. Theory, harmony and musical history are discussed in groups, but the piano instruction is individual. Each pupil does some playing on the piano at every lesson.

The instructor is Rita Mitchell, a concert pianist, who studied with Abby De Alviret and has done concert work in Los Angeles.

The only expense for a student is the cost of his own music. Also, each one pays his own share in attending class parties or recitals by famous musicians. (Parties and recitals are optional.)

LETTERS TO
 The Times

[Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving controversial religious questions are not acceptable.]

Everyone Must Help
 LOS ANGELES, March 11.—[To the Editor of The Times:] Stressing the prohibition question in his inaugural address, President Hoover makes it plain that it is up to the citizens of the United States whether enforcement of the Eighteenth Amendment and the Volstead Act is successful or not.

We are prone to placing the blame for all the ills and sins of omission and commission during his term on the Chief Executive. We stress our individual views of real or imaginary failures; but fall to ponder how far the President may be responsible. The existence of adverse conditions seems to be prima facie evidence of his neglect of some of his official duties.

No one man can control or anticipate adverse conditions in any locality or in the country at large. Full co-operation of Congress, public officials in every city and State over which he has no control; and of the people themselves, are necessary for carrying out campaign pledges and the fullest measure of his success. The idea of individual responsibility seems foreign to many people.

Congress has paved the way to better enforcement of the prohibitory laws in the passage of the Jones Act. The President has not to tie his hands by indifference. We signified our desire for stringent enforcement of the laws at the polls in November, but we must be willing to aid in carrying out whatever plan is proposed to make it effective.

Those who patronize bootleggers of illicit liquor help to nullify the work of enforcement officers; they are as guilty as the man who makes or sells it. With no customers, any business must cease to exist. Can the people be trusted to assist, or will they remain indifferent?

Everyone Must Help

LOS ANGELES, March 11.—[To the Editor of The Times:] Stressing the prohibition question in his inaugural address, President Hoover makes it plain that it is up to the citizens of the United States whether enforcement of the Eighteenth Amendment and the Volstead Act is successful or not.

We are prone to placing the blame for all the ills and sins of omission and commission during his term on the Chief Executive. We stress our individual views of real or imaginary failures; but fall to ponder how far the President may be responsible.

The existence of adverse conditions seems to be prima facie evidence of his neglect of some of his official duties.

No one man can control or anticipate adverse conditions in any locality or in the country at large.

Full co-operation of Congress, public officials in every city and State over which he has no control; and of the people themselves, are necessary for carrying out campaign pledges and the fullest measure of his success.

The idea of individual responsibility seems foreign to many people.

Congress has paved the way to better enforcement of the prohibitory laws in the passage of the Jones Act.

The President has not to tie his hands by indifference.

We signified our desire for stringent enforcement of the laws at the polls in November, but we must be willing to aid in carrying out whatever plan is proposed to make it effective.

Those who patronize bootleggers of illicit liquor help to nullify the work of enforcement officers; they are as guilty as the man who makes or sells it.

With no customers, any business must cease to exist.

Can the people be trusted to assist, or will they remain indifferent?

We must not expect the President to carry the burden alone.

When he asked us to conserve food during the World War, we rallied to his support.

He asked for our help now, and we must not expect to see him perform miracles. He is no deity. It rests on us as citizens whether lawlessness shall continue.

W. C. COLLINS.

Fertile Soil

ALHAMBRA, March 11.—[To the Editor of The Times:] Whoever wrote the editorial, "Sun-up in the past," has a great knowledge or is possessed of a very discerning mind.

Those who lived seven years in North China, from my limited knowledge I confirm every word of the editorial; and especially that sentence which compared the soil of California to the soil of China, as potentially capable of marvelous productivity if only educational influences are abundantly furnished.

All just observers of the results of teaching the children of the poor in mission and other schools will bear testimony to the almost miraculous awakening of unsuspected gifts.

O. W. WILLIAMS.

Courteous Officers

HOLLYWOOD, March 11.—[To the Editor of The Times:] May I be permitted to express my great appreciation for the all-around courtesy and consideration of the police force of Los Angeles—both the officers on foot and the mounted traffic officers.

I do a good bit of driving between my home, in Hollywood and Los Angeles, and there have been many occasions upon which I have seen officers handling awkward situations with great tact and kindness. Often when I had to appeal to them for directions, and have yet to receive anything but the most courteous replies, and every assistance possible.

It is to be doubted if the general public realizes the difficulty of the city police officer's position. He is usually looked upon as something to be shunned and avoided at all costs—whereas the facts are that the police of Los Angeles—city and county—are entirely at the public's service—and always ready to tender it.

Would that the police of my one-time home city—New York—were one-half as decent!

LAWRENCE MOTT.

United States Game Warden.

CLOSING OF
"SWAN" NOT
FAR AWAY

Last Weeks of Horton's
Popular Production Now
Being Enjoyed

"The Swan," Edward Everett Horton's current regal farce at the Majestic Theater, is soon to sing its own song to the local radio. The popular comedian and actor, who has played the play positively "finis" on April 6, next, has been asked to extend the run of the play, of necessity, because of the motion-picture contracts awaiting several members of the cast.

The cast of "The Swan" has often been hailed as a triumph and a tribute to Horton's ability as a showman. "The Swan" is at present in its ninth week and has been enjoyed except for one member. Those who are contributing performances to the regal production include Edward Everett Horton, Ralph Forbes, Helen Ware, Mary Forbes, Jesse Arnold, Mitchell Harris, Charles Carleton, Byron Saps, K. Wain, Harrison King, Lewis Morrison, Lottie Williams and a host of others.

Technician for
Guld Devises
Loud 'Tootler'

Among the effects that go to make up the production of "Strange Interlude" at the Biltmore Theater, is a very odd-looking mechanical apparatus looking like a cross between a steam radiator and a pipe organ. This machine is the means by which an important off-stage sound-effect is produced. One scene of the play portrays the finish of a boat race at Poughkeepsie. Such an occasion, in reality, is the signal for a bedlam of noise. Yachts and ships anchored at the finish-line blow their steam whistles, the locomotives that have drawn trainloads of observers along the river bank blow theirs, and all the thousands of spectators deliriously shout horns.

To reproduce this exciting moment of a traditional collegiate regatta, the technical director of the Biltmore Theater, Guld, has devised a steam-heating system of the theater to work on the principal of a steam calliope. For the sake of achieving realism in the detail, it is only heard for about six seconds out of the four and a half hours of the play. The 800-pound tootler has been carried everywhere by the company on its transcontinental tour.

Seiter Company
Wears Shamrock

Selecting the anniversary of St. Patrick's as an auspicious time to start the production of an Irish romance, Director William A. Seiter launched Colleen Moore's first dialogue picture, "When Irish Eyes Are Smiling" at the First National studio, with the appropriate accompaniment of Irish tunes, flags and brogues. In fact, brogues are among the first requisites on Colleen's sets these days.

According to G. Ter, the dialogue written by Tom J. Geraghty, the Gaelic linguist and author, fairly sparkles with Irish humor, and is admirably suited to Colleen Moore for her first talking production. To date, James Hall and Claude Gilman are the only two important featured players cast.

"When Irish Eyes Are Smiling" marks the fourth picture starring Colleen Moore which Seiter has directed; and it is to be released as a special.

"Why Be Good?" one of the series, closes today at Loew's State Theater.

FOUR HITS
COMING TO
PLAYHOUSE

Quartet of Theater Guild
Successes Head This Way;
Opening April 15

Four proved successes, headed by George Bernard Shaw's comedy, "The Doctor's Dilemma," produced by the Theater Guild of New York and with the New York casts of Guild players, will be brought to Los Angeles shortly, it is announced today.

The Theater Guild plays are sponsored by the Los Angeles Repertory Theater, Inc., and will be given at the Figueroa Playhouse for one week each, opening Monday night, April 15, and each succeeding Monday night.

Shaw's "The Doctor's Dilemma," beginning April 15, the Theater Guild plays are announced as follows: "The Second Man," by N. S. Behrman, described as a "witty and civilized comedy," week of April 22, "John Ferguson," by St. John Ervine, a realistic drama, week of April 29.

"Ned McCobb's Daughter," Sidney Howard's comedy, week of May 6.

At the Figueroa Playhouse these days extraordinary efforts are being made to make the forthcoming plays social and theatrical events of the season. The 2800 patrons of the Los Angeles Repertory Theater are now making reservations. As usual, with Repertory Theater plays, the general public is invited.

Music Students
Gather to Hear
Spirituals Sung

Because of the many spiritual and southern songs interpreted in "Hearts in Dixie" at the United Artists Theater by the Biller Chorus and many soloists, music teachers are urging their students to attend the showings of the Fox-Movietone picture, it is said.

By special arrangement with William Wrigley, Jr., and Joe McCarthy, manager of the Chicago Cubs, the baseball aggregation will be presented in person at the United Artists tomorrow night. Such players as Rogers Hornsby, Kiki Snyder, Charles Hartnett and Gus Gettle will be introduced from the stage. (The Cubs are training here for their coming season.)

Mabel Forrest
Cast in Role

Mabel Forrest has been signed for the important part of Madge, the mannequin, in "Little Orchid Annie," which Rowland and Pearce will present at the Mayan Theater April 15. Miss Forrest has just completed a series of talking pictures with Edward Everett Horton. She is best known to theatergoers for her performance in "Excess Baggage," "What a Man," "Relations," "The Little Spitfire" and "This is Love," all stage plays which she has heard in the Eddie Horton comedy, "The Eligible Mr. Bangs" for Educational; "Post Mortem" and "Dear Victim" for Christie-Paramount.

FIRST BROKERS FOUND

Beginnings of Wall Street Traced to London Coffee Shop

Historic research for "The Wolf of Wall Street," now playing at Lazarus's Million Dollar, discloses that the first stock transactions of the first stock exchange were conducted through brokers whose headquarters were in the Coffee House, in Chase Alley, London. There was no formal organization among these brokers.

Later on the East India Company developed the idea of raising public capital for corporate uses through stock exchange trading. In 1720 the enormous public speculation in shares of the South Sea Company in London and of the Mississippi Company in Paris brought about trading to a height never before conceived.

The London Stock Exchange building was not erected until 1801. The Paris Bourse was built in 1826. And the New York Stock Exchange operated in rental rooms until 1863, when a building was erected on Broad and Wall streets.

TROJAN PRACTICE A
MOVIE-TONE SUBJECT

On the program at the Fox Carthage Circle Theater with Douglas Fairbanks in "The Iron Mask," is a Fox Movietone news subject that should be interesting to thousands of football enthusiasts of the Southland.

This talking news subject shows the University of Southern California Trojans starting their spring practice for the big season ahead of them next fall. Coach Howard Jones is seen putting the aspirants for football honors through their paces, and all of the old favorites of last season who will be present during the coming campaign are present in this interesting subject.

BREKKE FINISHES ROLE
Edmund Breke concluded the biggest role of his screen career last week when he acted in final scenes for "Headlines," the Warner Brothers Vitaphone production of the newspaper "game." The veteran character actor played the part of editor in the story of metropolitan journalism which was written by James A. Starr. The role was Breke's seventh under the Vitaphone banner.

ANOTHER FOR "JEALOUSY"
Jack Newberry, who played in the talking film version of "Gentlemen of the Press" at Paramount's Long Island studio, is cast for a part in "Jealousy," starring Jeanne Eagels, now in production at the studio. Newberry will have the role of a lawyer's assistant. The picture is being directed by Jean de Limur.

MEMBERS FLAY HUMANE BOARD

Three Commissioners Back Citizens' Protest

Maladministration Charged to Department Head

Accused Official Will be Called to Explain

Three members of the Humane Animal Commission testified that they are not satisfied with the present administration of the city's humane department at yesterday's session of the Health and Sanitation Committee of the City Council, which is investigating the management of that department.

The investigation was ordered by the Council when a citizens' committee asserted that animals at the City Pound are treated cruelly; that the method of killing animals is needlessly painful and that the department had illegally sent a number of retired fire horses to an establishment which manufactures animal food, where they were killed by being struck over the head with a hammer.

The members of the Council committee, which is made up of Councilmen Foster, Golden and Webster, expressed considerable surprise when, in succession, three members of the commission, Mrs. Helen A. French, Mrs. H. C. Terrell and Arthur L. Line took the stand and not only agreed with the testimony of the preceding witnesses, but added that they are in sympathy with the views of the citizens' committee which made the charges against the department under their direction.

The three commission members asserted that the commission is dominated by its president, Mrs. Warren McIntyre, but offered no reply to a question by Councilman Golden as to why they allowed Mrs. McIntyre to dominate the commission and carry out policies with which they were not in accord.

The committee will hold its next hearing in the investigation on April 2, and at that time Mrs. McIntyre and Rodman Robeson, general manager of the humane department, will be given an opportunity to reply to the charges made against their administration of the department.

LEASE BIDS OPEN TODAY BY COUNCIL

Offers for Rent on Old City Hall Grounds Will be Looked Into Again

Sealed bids for the leasing of the site of the old City Hall as a parking station will be opened by the City Council this morning. This is the second occasion on which bids for the lease of that site have been received by the Council.

On the former occasion all the bids were rejected after the Council had examined itself in a number of procedure which was caused by an attempt to give simultaneous consideration to two different forms of bids, one being for a straight lease and the other for a lease which also would specify the maximum amount to be charged for parking.

At that time the Council also permitted the offering of oral bids after the sealed bids had been opened. Only sealed bids will be considered today, however.

Judge Bullock's Only Opponent Abandons Race

Announcing that he has discovered general public approval of the incumbent Judge whom he proposed to oppose for re-election in the forthcoming municipal election, Attorney George Lester, Jr., yesterday withdrew his candidacy in opposition to Municipal Judge Bullock and informed her that she may count on his support.

In his letter to Mrs. Bullock, Attorney Lester said: "I have been greatly impressed by the fact that public sentiment does not at this time warrant a change with respect to your office, and a prompt recognition of that fact, together with my own personal desire in coming to a decision to withdraw my candidacy."

"I believe that your honesty of purpose and responsibility have manifested themselves numerous times during your term of office and your judicial conduct has been practical, fearless and conscientious, and coupled with an honest desire to temper justice with mercy."

The withdrawal of Lester leaves Mrs. Bullock without opposition at this time.

CLUB TO TALK OVER AUDITORIUM PLANS

Discussion and perusal of plans for a 1000-seat auditorium on which work will be begun within a few weeks will form part of an entertainment program which will feature the assembly of the 23 Club of Hollywood this evening at the new clubhouse, Yucca and McCadden streets. Gus Edwards, song writer and stage player, and four Hollywood starlets, Nora Lee, Marjorie Gilne, Helen Wright and Lurline Uller, will be featured. Creighton Hale, screen player, will act as master of ceremonies. Saturday evening George Harris, vaudeville and screen player, will present the second monthly 23 Club show featuring four original dramatic sketches and six novel acts in which stage and screen players will appear. Rex B. Goodell is president of the 23 Club.

CANADIANS TO MEET Under auspices of the Canadian Club a free concert and entertainment is to be given at the Hotel Stowell persons tomorrow. Tonight the Canadian Tourists' Society will be guests. Arrangements for the affiliated Canadian reunion at Pasadena, April 7, are to be completed. Former Canadians will be welcomed at both functions.

The Sporting Thing For a Boy's Easter!

Store for Boys... BULLOCK'S... Fifth Floor, Broadway

The Blazer Jacket in tri-color stripes! Shorts of flannel in solid harmonizing color! The sporting thing that boys like, particularly for Easter! A time for inaugurating Spring things!

Speaking of inaugurating, Bullock's inaugurates this interesting value, for boys whose fancy turns to sport things.

The Blazer, is of course, a remarkable value, \$8.50, in sizes 3 to 12.

Matching Shorts are \$3.50.

High School Boys Decide on "White Flannels" with Coat

The White Flannel Trousers are plain or striped in blue, black or brown. They are tailored to hang correctly. The sportiest thing to wear on Easter, all Summer long, by the way! \$7.50.

Color is important in the double-breasted Flannel Coat to wear with White Flannels! Ciel Blue, Field Green, Polo Tan, Navy Blue. Coats are unlined that they may fit the better. Excellent tailoring. Sizes 13 to 18, a value, surely at \$12.50.

Store for Boys, BULLOCK'S, Fifth Floor

Violet Corsage, \$1.50 For Easter Ensembles!

The large bunches of French Violets that Bullock's imported just in time for Easter gift-giving! Beautifully made bouquets with foliage... in lovely natural shades of violet. \$1.50. (Other Easter bouquets, also, at attractive prices.)

Flowers... BULLOCK'S, Street Floor, Broadway

For Easter! Steuben Vases Inaugural Prices \$3, \$5

These are the genuine Steuben Vases! The typical heavy, bubbly glass in soft tones... shading from milky white to pink... or to jade or ciel blue. Very graceful shape! Many sizes... at today's special Inauguration Month price, \$3 and \$5.

Art Glassware... BULLOCK'S, Second Floor, Hill

700 Daytime Cotton Ensembles presented for Tuesday... as this advertisement goes to press the event will just be starting!

It is one of these events in which Bullock's has the utmost confidence! The popularity of the Daytime Cotton Ensemble is one that Bullock's believes tremendously important, this far in advance of the mode.

Model 491-1—Sketches above. Sleeveless White Gabardine Dress with tri-color Printed Gabardine, in Green, Blue or Orchid, \$12.75.

Ensemble \$12.75

One seasoned traveler, as we told you in our first announcement in the Monday Express, selected seven daytime cotton ensembles to wear mornings aboard the steamer.

There are six attractive styles. White Pique or Linen Dress with its own jacket or Coat of a bright Print!

Again, today and Thursday, this remarkable value at \$12.75.

Model 491-3—Sleeveless White Pique Dress with Tri-color Printed Pique Coat. Blue, Rose or Orchid, \$12.75.

Model 491-4—Jacket and Skirt of Pique, Frock in Polka Dot Print in Blue, Rose, White Blouse, \$12.75.

Model 491-5—Rayon Taffeta Dress, plaided in Red, Green or Black with White. Companion Jacket of White Linen, \$12.75.

Model 491-6—White Gabardine Dress with Seaside Printed Gabardine Coat, belted. Blue, Red, Green print, \$12.75.

Model 491-7—The new Absorbent Tri-color Print makes the Jacket and trims the White Linen Dress of this Ensemble, \$12.75.

Replica French Blouses

Paris "Dressmaker" Blouse Replicas arrive... \$15 to \$25. Flattering in their feminine versions in exquisite detail.

Color is equally important in blouse and accessory assembling. For the ensemble, like the chameleon changes color... a change made as often as the new color is introduced in blouse and accessories.

The French Replica blouse presents a happy solution for the Easter Gift, \$15 to \$25.

Broadway Elevators to Ensemble Blouses, BULLOCK'S, Third Floor.

"White with Color" Sweater, Compose \$17.50

Easter Season golf courses will see some of the "White with Color" Sweater, compose, or ensemble. Sweater with skirt, \$17.50. Cardigan with skirt, \$17.50.

Often the Pullover Sweater is all white with a mere touch of colored embroidery.

Cardigans are very attractive.

The Skirt may be of crepe silk, plaided around, or only in front if you prefer. Skirts are hip or bodice top style. White and pinks!

Sweater, \$8.75. Cardigan, \$8.75. Skirt, \$10.00.

Take Broadway Elevators to Season, BULLOCK'S, Fourth Floor

Smocked Frock, \$6.95 Bright Gingham Check

This simple peasant style fits into the scheme of things so nicely! Soft feminine developed in cool, crisp Gingham Check.

Some call this the "Pinafore" apron type checked in red, green or blue. Middy size to 20; women's sizes 36 to 42. Yarns coming frocks at \$6.95.

PROHIBITION AGENT ON HIS WAY TO THE CUB-
TIGER BALL GAME TODAY.

CUBS MEET DETROIT TODAY; ANGELS BEATEN, 11-3

ANGELS PLAY FIVE GAMES AGAINST CHICAGO SQUAD

Angels Boast Wrigley Series Hard-Hitting Ball Club

Wrigley, who jumped into the Washington Senators to the American League pennants and one world's championship, brings his band of Detroit Tigers into Los Angeles today to open a five-game invasion of Wrigley Field against the Chicago Cubs. The Tigers, who have been training over in Phoenix, stepped off at the latter as merely step-children, among those present to see the wind-up of the feud between his club and evidently his presence had something to do with the improved play of the Chicagoans.

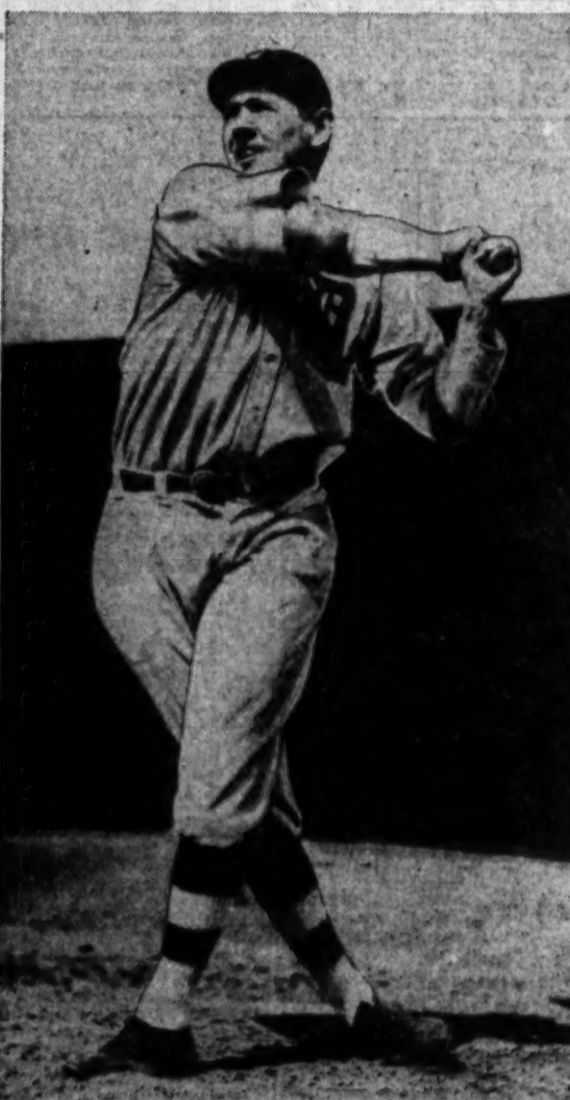

BY BOB RAY
Those Chicago Cubs are the Wrigley champions. They won that distinctive though doubtful honor yesterday out at Wrigley Field when they hung an 11-to-3 trimming on Marty Krug's ambitious Angels and thereby carried off the odd decision of the seven-game spring series. William Wrigley, Jr., who owns both the Cubs and Angels but considers the latter as merely step-children, among those present to see the wind-up of the feud between his club and evidently his presence had something to do with the improved play of the Chicagoans.

Anyhow, the Cubs put up their best performance of the exhibition series and looked like the champions. They admit they're going to be at the conclusion of this 1929 campaign. They played erratic ball, but the efforts of Clyde Barlow and Red Roberts for sixteen safeties, and got some fancy pitching from their hurlers, the Messrs. Bertie Horne and Hank Grampa, two boys who were in the International League last season.

(Continued on Page 12, Column 4)

A TRIO OF TIGERS WHO WILL PERFORM AGAINST CUBS TODAY

Bucky Harris' Detroit Tigers invade the Los Angeles lot of the Chicago Cubs today to open a five-game series at Wrigley Field and here are a few of the athletes who are out to make the Michigan metropolis noted for something else besides being the home of the River. On the left is Harry Heilmann, four-time American League batting leader, who will vie with Rogers Hornsby of the Cubs in a duel for the right to be known as the greatest right-hand hitter in baseball. Next is Charley Gehringer, star Tiger second-sacker. Gehringer, they say, is the best second-sacker since Lajoie. He must be good for he forced Bucky Harris to sit on the bench and Bucky is still quite a key-stone sack guard. Last but not least is Jonathan Stone, rookie outfield star. They say Stone is the greatest outfield prospect to join the Bengals since Ty Cobb broke in. If Stone's any better than Roy Johnson, the ex-Star for whom Detroit paid \$75,000, he must be plenty good.

REFEREE SAVES VETERAN'S HIDE

Belgian Fox Masters' Fox by
One-Handed Attack

European Middleweight Idol
Gives Rival Bad Lacing

Barrage of Rights Settles
One-Sided Olympic Go

BY PAUL LOWEY
Rene De Vos, the Belgian Fox, gave a first-class demonstration of one-handed punching in a one-sided fight at the Olympic last night. He moved down veteran Johnny Gill in less than a dozen rounds and proved to the satisfaction of the cash customers that he is a top-notch middleweight fighter entitled to equal consideration with the likes of Mike Walker and Ace Hudkins. With a left hand that was practically useless when he entered the ring De Vos right-handed Gill into complete submission. The fight was stopped by Referee Abe Roth in the seventh with Gill still on his feet, but rapidly becoming defenseless. His left side was chewed into angry red welts, his nose was bleeding, his jaw was swollen and the bones had left his limbs—all the result of the "one-handed right" which Jimmy Brownson, the celebrated second and trainer, had pre-arranged for the Belgian.

BACK FOR TARGET
De Vos waged a good fight, particularly good when he entered the ring. He had a hard man to fight. Most of the time Gill had his side or his back to the Belgian, and no man can operate successfully when the opposition acts in that manner. Gill had method in his madness. He tested the power of the De Vos right early in the bout when a short, sharp wallop that traveled not more than six inches bounced off his chin. This happened in the second round, and what remote idea Gill might previously have had of making a stand-up fight of it vanished completely. Thereafter the veteran was even more cautious. At that, you couldn't blame him. De Vos has a right with a real kick to it—hook, swing, straight or uppercut. He is a young man with what

Friday Morning for Gallop
With Nick Saturday

BY HEAVEN DYER
Paavo Nurmi is on his way to Los Angeles. The famous Phantom Finn left Hartford, Ct., yesterday morning and is slated to pull into this city early Friday morning.

The celebrated distance runner races Nick Carter of the Los Angeles Athletic Club at the Coliseum Saturday afternoon in a meet which may result in a new record for the mile.

Homer in Eleventh Gives
Detroit 7-6 Victory in
Portland Clash

ANAHEIM, March 19. (P)—The Detroit Tigers home-ran their way to a 7-to-6 victory over the Portland Beavers in an eleven-inning spring exhibition game here today. Behind one run in the ninth, the Tigers evened things up in that frame when John Stone, outfielder, smashed out a circuit-swing. The winning tally was scored in the eleventh, also on a homer made by Dale Alexander, six.

(Continued on Page 12, Column 2)

LOUGHRAN, WALKER BOUT TO SET NEW GATE MARK

CHICAGO, March 19. (P)—Tommy Loughran, world's light-heavyweight champion, and Mickey Walker, meeting for the title the 28th inst. at the opening of the Chicago Stadium, will draw a record-breaking gate for indoor shows. This was assured tonight when Paddy Harmon, president of the stadium corporation, announced the advance sale had exceeded \$100,000, with more than half of the 25,000 seating capacity sold. Harmon expects a gate of close to \$300,000.

McLARNIN NEVER WILL TRY TO MAKE 140 POUNDS AGAIN

BY JACK FARRELL
NEW YORK, March 19.—Regardless of the outcome of his bout with Ray Miller, the Chicago left-hander, on Friday night at Madison Square Garden, it will be Jimmy McLarnin's last effort to go right out and sweat off that one-quarter pound. That night he polished off Glick so quickly that it was difficult to determine whether the reducing process hurt him to any considerable extent. From the McLarnin camp today came the startling announcement that Jimmy had decided to keep on working out right up to weighing time instead of taking the accustomed forty-eight hours' rest. He will keep pegging away up to Thursday afternoon and Friday morning will find him out on the road. Tex Rickard's successor has been thought he had him licked when he

Stasiak Battles Daviscount Tonight for Chance at Sonnenberg's Mat

HEAVYWEIGHTS IN OLYMPIC GO

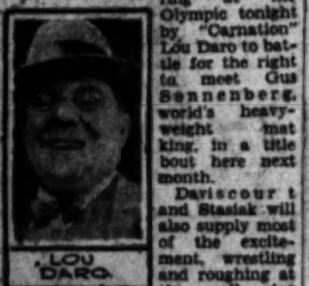

Kansas Farmer is Favorite in Feature Bout

All-Star Card Supporting Main Attraction

Spellman Faces De Laun in Finish Struggle

TODAY'S MAT BOUTS
 Stanley Stasiak vs. Dick Daviscount, best two out of three falls to a finish. John Spellman vs. Don De Laun, one fall to a finish. Y. Fujita vs. Alex Aberg, one fall to a finish.

Dick Daviscount and Stanley Stasiak, a pair of sticks of human dynamite, will be tossed into the ring at the Olympic tonight.

STASIAK

They will wrestle for the best two out of three falls to a finish here tonight. Stasiak is expected to win the match.

There have been many rough wrestling matches seen here in the past years that have been bringing the mat game to the coast, but tonight's feature event is expected to top them all.

Daviscount announced several days ago he expected to win this match by outwrestling and outwrestling Stasiak, who is known as the toughest wrestler of the last decade, has decided to give Daviscount a challenge in this style of wrestling commencing immediately after the Kansas event.

At straight wrestling Daviscount is credited with having somewhat of an edge over Stasiak. He has shown plenty of ability with the many holds known to the game in his big matches here with Joe Stecher, Jim London, Pete Bauer, Paul Jones and others. This is one of the reasons he is being made a slight favorite to win tonight.

Stasiak's specialty is known to be the rubber punch followed by a giant body slam. Several headlocks, double wristlocks and body scissors are some of Stasiak's other pet grips.

The special event of this card is expected to be another sensational affair. John Spellman, the 200-pounder from the East, who gave Daviscount a pair of tough matches here in recent months, and who defeated Paul Jones last out of three falls in less than an hour and a half in Arizona last week, will meet Don De Laun of Long Beach in the finish special event.

De Laun is a newcomer here, but he has all the earmarks of a top contender, according to most experts. He is 24 years old, weighs 190 pounds, and is an expert with the body hold, scissors and the cradlelock. He is built and wrestles a great deal like Nick Laize, the popular Chicago mat star.

Y. Fujita, Japanese six-foot star, will wrestle without the jacket for the first time, when he clashes with Alex Aberg, big blond Russian, in the one-fall finish opener.

CUBS CAPTURE ANGEL SERIES

Odd Game for Wrigley Title Won by Chicago, 11-3

Cuyler, McMillan and Wilson Lead Bruins' Attack

Horne, Grampp Let Krugs Down With Five Hits

(Continued from Eleventh Page)
 bat, but Roberts finally stopped him when Cuyler made a fifth trip to the plate. McMillan, who is putting up a battle with Clyde Beck for the regular third base job, poked out a home run and two singles, and for two hits and two runs in the hot corner. The squad, karpis-like Mr. Wilson gathered one of his home runs and a single, and for two hits and two runs in the hot corner. The squad, karpis-like Mr. Wilson gathered one of his home runs and a single, and for two hits and two runs in the hot corner.

Golden Prince Tries for Cup
 TIA JUANA RACE TRACK, March 19.—Golden Prince, winner of the Cofroth Handicap, will try for more honor and fame. Harry Unna, the owner of the Kentucky Express, this afternoon announced the big race, and for two hits and two runs in the hot corner. The squad, karpis-like Mr. Wilson gathered one of his home runs and a single, and for two hits and two runs in the hot corner.

Golden Prince has never run two miles, the cup distance, so his trainer, who is entering him in the event after the victory of last Sunday was taken with some surprise. A field of nearly twenty horses is expected for the cup.

The meeting will close Sunday, the 24th, and will be announced by James Wood Coffroth, president of the track. This is the 107th day of racing. Closing day will be marked by the running of the rich Tia Juana Futurity, a five and a half furlong stake race scheduled for 2-year-olds.

Timberly, racing for John Horner, looked down the major event on a somewhat featureless card this afternoon over a track muddy from rains of Monday and today. The 4-year-old colt won the mile event by a head over Burk Dale with the time of 1:42.4.

Results:
 1st race, four furlongs—Homer, 1:27 (Coffroth).
 2nd race, one and one-sixteenth miles—Homer, 1:27 (Coffroth).
 3rd race, one and one-sixteenth miles—Homer, 1:27 (Coffroth).

ARRESTS SOLVE BANK HOLD-UPS

**Suspects Taken for Robbery
of Border City Bank**

**Caught Dividing Plunder of
Raid, Police Charge**

Identification of Larry C. Davis arrested with two other men in San Diego following a bank robbery, there yesterday, was made by Chief of Detectives Cline last night as telling one of a trio wanted for another bank robbery here.

Davis also is known to police as Lynn C. Keith, according to Chief Cline, and considered here with two companions, one a negro, whose descriptions coincide with those of the two men arrested with Davis yesterday.

The trio is wanted in connection

here: The United States National Bank, Twelfth and Olive streets; Citizens' Trust and Savings Bank, branch, Western avenue; Citizens' Trust and Savings Bank, branch, at Third and March 21, 1939; Halldale and Adams branch of the latter bank, robbed on Nov. 10, 1938; \$7500, branch of Italy branch at Malibu and Western avenue, held up March 26, 1938; robbed of \$7500, at the Los Angeles-First National Bank branch, Normandie, on June 26, 1938, and robbed of \$8000.

Davis was arrested in a San Diego hotel, on June 26, 1938, by Sheriff and Walter Smith, Miller, negro, while driving \$15,000, stolen in the Los Angeles hotel, in a car from the First National Bank of San Diego, which was held up.

Was Pioneer Los Angeles Schoolman and Student of Psychic Research

Funeral services for Dr. George L. Leslie, pioneer student-psychical schoolman and research, will be conducted at 2 p.m. today (Jan. 22) at the Pierce Mortuary, 722 West Washington street. Dr. Stanton Hudgin will conduct services to be followed by interment at Mountain View cemetery, Altadena. Dr. Leslie died on the 18th inst. at 70 years of age.

DR. GEORGE L.

He was born in Wisconsin and educated at the University of Iowa and Chicago University. In 1930 he came to California and was engaged as science teacher in the Santa Barbara High School. After two years he returned to California to study at the University of California where he studied at Chicago University. In 1936 he returned to California to work as a research scientist in the Los Angeles Hills School.

In 1935 Dr. Leslie was instrumental in establishing a department of health and development in the Los Angeles Hills School. In 1937 his resignation was heard of that department. He was a pioneer in the field of child health and development among the first to advocate and arrange for the classification of children on some rather definite basis.

In 1938 Dr. Leslie withdrew from the Los Angeles Hills school and went to the University of California at Los Angeles where he was a member of the faculty.

...study and advancement or publication of research in the field of psychology in organizing the Los Angeles branch of the American Psychological Association, and intended to carry on its activities. He was thus engaged when the summons came to test out in a more practical form the theories he had espoused.

GUATEMALA AIR SERVICE IN PROSPECT

*New Company Will Link
Tepicchula to Los Angeles
by Way of Mexico City*

Passenger and air mail service connecting Los Angeles with Tepicchula on the border of Mexico and Guatemala was announced last night.

Francisco Franks, head of a syndicate of financiers backing a company to build a new airline.

Forty-eight-hour service between New York and Mexico City is included in the plans for the 2200-mile airline. The new company is known as the Mexican National Airline, Inc., and is headed by a group of Americans, and plans to send its first plane toward Mexico within a few days.

Nationally known financiers who are members of the syndicate include: Arthur English of Beverly Hills, and O. B. English, his brother.

Word that the Mexican government has awarded the air mail contract to the new company has caused Franks to leave from Mexico City yesterday through L. C. Beach, erstwhile partner of the company, in order to obtain Mexican capital as a representative of the new company.

The syndicate has threatened to move by the Mexican government to open up an air transportation

Twenty-five planes ultimately will be placed in operation on the line, Frank announced.

Capt. Ellis and Frank will fly the route from Mexico City to both Mexican borders, surveying the proposed route and picking out sites for intermediate landing fields.

Once Overs - - - By C. D. Batchelor

"Auntie says she's not feeling well today."
"George, she wouldn't admit it if she felt stronger than Gene Tunney."

Joshua Little

BY LEE SHIPPEY

A typical American man is one who knows American women are spoiled by having too much money and American children are spoiled by having too much money, but each one that American man are spoiled by too much money.

Practical Optimist: Bride: My husband had a hope chest, too, before we were married. Neighbor: For mercy sake!
